

NEW CHARTER THREAT FALLS AT HAYWARD

Pardee Waves Bugaboo of
Oakland Forming Separate
Government Before Audi-
ence At Debate of Charter

Figures on Alleged Saving to
Taxpayers Again Demanded;
Knowland Tells Hearers
Menace Proposal Includes

Labor Denies It Favors Charter

STATEMENTS broadly circu-
lated by proponents of the
new charter scheme that they
have the endorsement of the
Central Labor Council were char-
acterized today as without fact or
foundation by B. S. Hurley, presi-
dent of the council.

"The Central Labor Council,"
said Hurley, "has taken no action
on the matter since the charter
was presented and I do not be-
lieve that it will."

Hurley added that some time
ago, before the charter was
drawn or submitted, the council
went on record in a general way
as favoring the consolidation
principle. Any attempt to make
this action imply that the coun-
cil is on record as favoring the
charter presented by the free-
holders, Hurley says, is misrep-
resenting the situation.

The Central Labor Council has
not endorsed the new charter
scheme.

U. S. Low on Imagination---Edison But Two Pct. Have It, He Asserts Idea of Self-Government Dented

By ALLAN D. BENSON,
Special Correspondent International News Service
(Copyright, 1921, by International News Service)

ORANGE, N. J., Oct. 25.—"Neither
you nor anybody else," said Thomas
A. Edison to me today, "can write
a self-evident fact so plainly that
three per cent of those who read it
can understand it. On second
thought, I think I would reduce the
number who can understand it to
two per cent."

The interview took place in his
laboratory here. When I entered
the door and caught sight of him
he was bending over the same desk
where I had seen him fifteen
years ago. His big white head
bent down over papers he was
studying. He looked up and
smiled with the cordiality that
he has retained. He knows Edison
will recall. At my first question he
plunged into the first interview with
all of the remarkable vigor that he
puts into his work.

Thomas A. Edison has been going
to school lately. His instructors are
those who apply to him for employ-
ment. By studying their answers to
his famous questionnaire he is learn-
ing new things about the human
race. Some of the things he learned
saddened him. The answers to one
question in his latest questionnaire
he will not publicly discuss because
they constitute an indictment of a
large percentage of those applying
to him for employment.

"You write an article," continued
Mr. Edison, "and write it as plainly
as you can and think people under-
stand you. You are wrong. Only
two per cent can understand it be-
cause but two per cent have sufficient im-
agination."

PEOPLE OF AMERICA
LACK IMAGINATION.

"That is why it takes so long to
get any kind of needed legislation
in this country. It takes 25 or 30
years to put anything over. If the
people of the United States had im-
agination, they could understand a
thing the first time they were told
and be ready to act at once."

"If only two per cent can under-
stand," Edison was asked, "what
is there for self-government?"

"Not a chance on earth," he re-
plied. "We have no self-government.
We have government by a little
group of men, most of whom are
lawyers. You know what Herbert
Spencer said about governments. He
said the average intelligence repre-
sented by governmental acts was
lower than the intelligence of the
least intelligent member of the gov-
ernment. That explains a lot of
things about government."

GREEK PHILOSOPHERS
WERE BLIND, HE SAYS.

Edison was asked if human in-
tellect had gained anything in power
since the days of the Greek philo-
sophers.

"I think it has gained a good deal
in power," he replied. "The Greek
philosophers were pretty blind. Al-
most everything we have today was
before their eyes but they could not
see much of anything. The lathe
was looking at them. The turbine

Mystery Veils Indictment of Arizona Senator

Federal Judge, District At-
torney and Daugherty Reticent

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

PHOENIX, Ariz., Oct. 25.—Infor-
mation regarding the specific offense
or offenses on which the charge of
perjury was based in the indictment
returned against Ralph H. Cameron,
junior U. S. Senator from Arizona, by
the last general federal grand jury
still was lacking today.

Judge William H. Sawtelle,
presiding over the U. S. District
court, and Thomas H. Flynn, U. S.
district attorney, declared that they
could not discuss the matter until
Attorney General Daugherty at
Washington had authorized them to
do so.

The fact that the indictment was
returned was learned yesterday when
an entry relating to the matter was
found in the minutes book of the
court. The entry stated that the in-
dictment charged Senator Cameron
with "violation of section 125 of the
penal code, 1910—perjury."

Senator Cameron was elected last
November 2, when he defeated Mar-
cus A. Smith, his Democratic oppo-
nent and predecessor in the Senate.

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

WASHINGTON, Oct. 25.—Attorney
General Daugherty declined to-
day to enter into any extended dis-
cussion of the indictment by the fed-
eral grand jury at Phoenix, Ariz., of
Ralph H. Cameron, United States
Senator from Arizona.

The attorney-general, in response
to inquiries, said there was a "sus-
picion" that an indictment had been
brought against Senator Cameron
and that his people were evi-
dently attempting to get some infor-
mation, but the Department of Jus-
tice had nothing to say in connection
with the matter at this time.

Bat Masterson, Old Western Sheriff, Dead

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

W. R. "Bat" Masterson, former sheriff
in the southwest and in recent years
a sporting editor of the Morning Tele-
graph, died of heart disease while
at his desk today. He was 65 years
old.

Masterson had an adventurous
career. Born in Fairfield, Ill., he
went with his parents to Wichita,
Kas., when he was 14, and two years
later became a full-fledged buffalo
hunter. He fought with Captain
Baldwin's scouts against the Indians
in the battle of Red River and was
severely wounded. After the Indian
warfare he returned to buffalo hunt-
ing. When barely 21 he was elected
sheriff at Dodge City, Kas., and was
a terror to "bad men." Later he
moved to Trinidad, Colo., where he
became a marshal. Subsequently he
went to Tombstone, Ariz., and thence
to Denver and Chicago. He came to
New York a number of years ago
and became widely known as a writer
of sporting articles.

Thieves Use Truck To Haul Away Loot

LOS ANOES, Oct. 25.—Not the
slightest trace has been found of the
damning burglars who looted the fog-
horn, this place, of \$3000 worth of
merchandise last Thursday night.
The goods consisted of men's suits,
overcoats, silk shirts, underwear,
blankets, sweaters, gloves and suit-
cases. From all indications a big
city truck was used to carry away
the plunder, and from the boldness
with which the job was performed,
the officers believe the burglars were
well acquainted with the store.

N. Y. Auto Thugs Take \$1,000,000 From Mail Truck

Four Pouches Are Stolen In
Broadway Holdup; Driver
Detained.

NEW YORK, Oct. 25.—Three
armed bandits in an automobile
forced the driver of a mail truck to
stop on lower Broadway late last
night while they rifled the truck of
four pouches of registered mail
valued at \$1,000,000 by the postal
authorities.

The truck was on its way from the
City Hall station to the Pennsylvania
railroad terminal with seventeen
pouches of mail, eleven of them con-
taining registered matter. The driver
had gone only a few blocks when a
men drew alongside. They confront-
ed him with guns, and he was or-
dered him to slow down.

GENERAL ALARM IS
SENT OUT BY POLICE.

At Leonard street two men jumped
from the automobile onto the truck
and ordered the driver to get down
from his seat. One held a revolver to
the driver's head, he said, while the
other pointed his weapon at his
stomach.

Forcing the driver to turn over the
key, one bandit unlocked the cage
and pawed over the pouches in-
side. Selecting four, he trans-
ferred them to the automobile which
then sped away. The driver, who
was threatened to "blow his brains
out" if he moved, the driver said, moved
the truck toward Broadway and
disappeared.

The driver, Frank Havranek, 25,
said that after satisfying himself his
life was no longer in danger, he got
back on the truck and drove to the
Beach street police station. A gen-
eral alarm for the green automobile
was sent out at once and postal in-
spectors summoned.

DRIVER SEARCHED IN
VAIN FOR POLICEMAN.

The driver, when questioned by
postal inspectors, said that he had
looked for a policeman. The whole-
sale dry goods district around
Broadway and Worth street is gen-
erally deserted at night and there
was no street traffic after business
hours.

Havranek was able to furnish the
postal inspectors with part of the
license number of the car.

He had been a mail driver for
three years. He was detained by the
postal authorities in order, they said,
to have him at their disposal to
identify suspects who may be
gathered in by the police.

WASHINGTON, Oct. 25.—Reward
of \$500 to any person bringing in
"dead or alive" any one of the three
automobile bandits who late last
night up a United States mail truck
in New York was offered today by
Postmaster-General Hays.

SAN FRANCISCO, Oct. 25.—An
order directing that all hotels be
held responsible for prohibi-
tion enforcement violations with-
in their premises "on account of the
increasing number of such viola-
tions," was received today by
E. Forest Mitchell, district en-
forcement officer, from Prohibi-
tion Commissioner Haynes. The
order also directed that abatement
proceedings be brought to close
hotels where liquor is delivered
or consumed illegally with the
knowledge of the management.

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

WASHINGTON, Oct. 25.—Beer as
a medicine enjoys a full legal status
today, through the unexpected action
of the Treasury Department in pro-
mulgating regulations permitting its
use for that purpose. Issued in ac-
cordance with an opinion submitted
by former Attorney General Palmer,
last March 3, holding the medicinal
use of beer to be legal under the
prohibition laws and after being
withheld since then, in anticipation
of early action by Congress on the
pending anti-beer measure, an-
nouncement of the beer regulations
came as a complete surprise to pro-
hibition leaders.

Predicting an immediate reaction
to the treasury's announcement in
the direction of increased pressure
to effect enactment of the anti-beer
bill, dry advocates in and out of
Congress did not conceal their disap-
proval of the Department's action.
Wayne B. Wheeler, general counsel
for the Anti-Saloon League, de-
scribed the department's action as
"any other time."

USE AS MEDICINE ONLY
IS COVERED BY RULING.

Secretary Mellon, in announc-
ing the new rules, declared that "the
rights of the parties concerned being
scrutinized at one time for the use of
the same person is limited to 2 1/2 gal-
lons, equivalent to a case, but no
arbitrary limit is placed upon the
amount of such prescriptions as a
physician may write of the same
person may obtain within a given
period."

Two quarts of wine was the limit
on a single prescription for that
beverage, he also observed. The regu-
lations are the same as for beer.

Spirituous liquors are limited to
one pint within any ten-day period
and alcohol for external use was
limited to one pint to the same person
at one time.

ONLY PHARMACISTS
MAY FILL ORDERS.

Prescriptions for these medicines
may be filled only by a licensed phar-
macist who is also a retail druggist,
or in the case of a physician in the
employment of a retail druggist.

Prescriptions are not refillable and
the regulations declare that a phar-
macist "should refuse to fill any pre-
scription for liquor if he has any
reason to believe that physicians are
prescribing for other than medicinal
uses or that a patient is securing
through one or more physicians
quantities of intoxicating liquor in
excess of that necessary for medi-
cinal purposes."

Besides beer, regulations permit
use for medicinal purposes of other in-
toxicating malt liquors such as ale,
porter and stout, and similar fer-
mented malt liquors containing one-
half of one per cent or more of al-
cohol by volume.

A "T-BEER MEASURE"
FRAUD IS AVOIDED.

Right to prescribe distilled spirit,
wines and malt liquors for medi-
cal purposes is confined to such phar-
macists as have obtained permits to
prescribe for medicinal purposes. Such
a physician, the regulations state,
may prescribe for "a person on whom
he is attending" and after physical
examination of such person, or if
physical examination is impracticable,
upon the best information ob-
tainable the physician believes that
the internal or external use of such
liquor as a medicine by such person
is necessary and will afford relief to
him from some known ailment."

Senator Sterling, Republican,
South Dakota, charges the measure
in the Senate, declared that the
bill would be taken up im-
mediately after disposal of the pen-
dency tax bill and there "was no ques-
tion of its ultimate passage."

Senator Broussard, Democrat,
Louisiana, prominent in the fight
against the anti-beer bill, suggested
that the regulations might have been
used to assist in expediting pub-
lic demand for dry legislation but
declared there was no intention of let-
ting up in the fight against the bill.

VIENNA, Oct. 25.—Former Em-
peror Karl's second attempt to regain
his throne has ended in dismal fail-
ure and he and his principal follow-
ers are under arrest, according to ad-
vice from Budapest today.

Along with Karl and Empress Zita,
Count Julius Andrássy and other
leaders of the movement to restore
the Hapsburgs have been arrested,
according to word from the Hun-
garian capital.

Regent Horthy of Hungary an-
nounced he would surrender Karl to
the British embassy, which probably
would send him to some exile from
which another attempt to regain the
throne would be impossible.

HALF TROOPS SURRENDER,
REMAINDER FLEE.

Half of the troops with which Karl
set out to take Budapest have sur-
rendered, the other half fleeing to-
ward Tata Tavoras, near where they
were being hunted down today. The last
village held by the royalists capitulated
today to an organized body of troops.

KARL SURRENDERED
BY OWN BODYGUARD.

Karl was turned over to Horthy's
troops by his own bodyguard. After
he had fled from the field in a spe-
cial train, north toward Komorn,
where he rejoined Zita, the advance
guard of his pursuers was so close
that he was deemed expedient to
give him up for the sake of his
own safety. He was treated very
respectfully.

U. S. TO CARRY RAIL STRIKE INTO COURTS

Attorney-General After Con-
ference With District Offi-
cials Says Action Necessary
to Operate Roads Planned

Secret Conferences in Chicago
Lead to Report That Rail
Dispute Settlement Has
Been Reached by Chiefs

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

WASHINGTON, Oct. 25.—Discus-
sions of details as to the policy of
the department of justice in event of
a railroad strike was completed to-
day at a final conference by Attorney
General Daugherty and district at-
torneys from five important railroad
cliques.

The district attorneys on leaving
the conference were admonished by
Daugherty not to discuss the depart-
ment's plans and the Attorney Gen-
eral likewise refused information.

Daugherty and the district attor-
neys held their first conference yester-
day and at its conclusion it was
announced that a program insuring
transportation of passengers, food
and fuel in case of a strike had been
worked out.

On the general question of the
government's right to act in event
of a strike the justice department is
understood to take the position on
the authority of supreme court deci-
sions that the employees of public util-
ities bear a different relation to their
posts than workers in other indus-
tries because of the duty owed by
public utilities servants to avoid any
interference of factious action upon which
the public is dependent.

Upon this principle, officials said,
the department was prepared to pro-
tect the public from a cessation in
the flow of commerce throughout the country.

MISUNDERSTANDING OF
SUMMONS SIFTED.

CHICAGO, Oct. 25.—(By the Asso-
ciated Press)—The United States
Railroad Labor Board went into ex-
ecutive session this afternoon to con-
sider the situation arising in the mis-
understanding on the part of some
of the big four brotherhood lead-
ers as to the meaning of the Board's or-
der summoning fourteen hundred
general chairmen of the unions to
attend the hearing held yesterday.

The Labor Board this afternoon
asked the association of railroad ex-
ecutives to send a committee to
meet with the board at 3 o'clock. No
announcement was made of the sub-
jects to be discussed.

The executives had just gone into
session at the Blackstone hotel
when the board announced it had
sifted the misunderstanding with the re-
quest of Robert E. Einkorn, assistant
to Thomas DeWitt Cuyler, chairman
of the executives, said a committee
would be appointed immediately to
meet with the board.

The committee of executives will
be asked to give the board first-
hand information as to their plans
and their position if the threatened
strike materializes, it was learned at
the labor board.

"Our purpose in calling them" is
the same as when we called the
union presidents here last week," a
board member said.

The labor board in its executive
session completed its plans for the
hearing tomorrow. After an open-
ing statement by Chairman R. M.
Barton, explaining the reasons for
the "peace conference," the board
will have an opportunity to present a
statement, with cross-examination to
follow.

BY HAROLD D. JACOBS
United Press Staff Correspondent.

CLEVELAND, O., Oct. 25.—Secret
negotiations were reported here to-
day to be under way preliminary to
the "peace conference" scheduled
tomorrow, which is designed to avert
the railway strike, scheduled to begin
Sunday.

While these reports were denied by
the brotherhood executives, they as-
sisted under the surface and were
repeated with considerable detail.

According to unofficial infor-
mation, these negotiations began be-
fore the railway labor board and
the unions and between the board
and

RYERS PREPARE TO BATTLE WINE AND BEER REGULATION

action by Treasury Department With Legislation Pending Draws Protests.

(Continued from page 1)

will not be the "old-fashioned" kind, according to John T. Drane, president of a Louisville beverage company.

Only mail and hops are used in making of near beer, whereas a cereal is required for real beer. It will be three weeks before the medicinal product can be made, he said.

UNITED PRESS ASSOCIATED WIRE TO TRIBUNE WASHINGTON, Oct. 25.—Real beer may be sold in only eleven states, Wayne B. Wheeler, general counsel of the Anti-Saloon League, said today.

They are: Illinois, Maryland, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, California, Louisiana and Wisconsin.

By W. H. ATKINS, International News Service Staff Correspondent. WASHINGTON, Oct. 25.—Secretary of the Treasury Mellon today directed treasury officials to expedite distribution of the new regulations authorizing manufacture and sale of beer for medicinal purposes.

There will be no delay in fully legalizing beer sales through pharmacists. State prohibition directors today ordered to arrange for the approval of all applications that will facilitate the setting up of machinery breweries for quick handling of orders from the retail drug trade.

Druggists who already have permits to sell alcoholic liquors are not required to give any additional bonds or other guarantees under the new regulations.

National Capital Flooded With Bootleggers' Booze

By CARL D. GROUT, United Press Staff Correspondent.

WASHINGTON, Oct. 25.—On the eve of the disarmament conference, with its host of foreign guests, the national capital is flooded with bootleg booze.

Despite prohibition agents' efforts to squelch this illicit trade and to refute stories that Washington is one of America's wettest cities—with the lid lifted for the conference—a bootleg army, including women, college graduates, ex-aviators, negroes, whites and foreigners, is pursuing a systematic sale and distribution of liquor. It can be obtained at from \$8 to \$20 a quart on an hour's notice.

Women are among the cleverest of the bootleggers' aides. They have entered in select apartment houses, distributing their illegal wares from their rooms.

ROUTES ESTABLISHED. With the legalization of medicinal beer, officials believe the capital will become even wetter. Although dry agents believe they are gradually beginning to check bootleg competition, their admissions, plus independent inquiry, shows a more difficult situation.

There is plenty of liquor in Washington, and it can be had even in hotels. The bootleggers charge \$20 a quart.

2.—Routes like milkmen or bakeries are established to facilitate distribution.

3.—The courts, according to District Prohibition Commissioner Stephenson, due to laxity or overcrowded dockets are hampering enforcement. Over 7000 bootleg arrests have been made in the fiscal year, 1921, ending in July. Since then there are already 300 pending cases. In 250 cases fines have been imposed, 200 forfeitures of collateral have been made, 80 booze autos have been seized.

Plot to Dynamite Railroads Alleged BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE ATLANTA, Ga., Oct. 25.—Lamar Pool, chief of police detectives of Atlanta, today declared he had discovered evidence of a plot to dynamite two southern railroads.

Pool gave out this information following discovery that 300 pounds of dynamite had been stolen from a rock quarry. Twenty pounds were found today in an unused heater, wrapped in brown paper, on which were crude drawings of locomotives, tunnels and other work connected with railroads.

SETTLEMENT OF RAIL DISPUTEN SECRET REPORTED

Railroads and Employees Exchange Proposals, Reach Agreement, Report.

(Continued from Page One)

Some minor union officials are here but most of the preparation of employees for tomorrow's session was done by the brotherhood heads in Cleveland.

The strike conference tomorrow is to be held in the Coliseum Annex and will be open to the public. This hall was chosen because the officers of the railroad board would not accommodate the 600 railroad executives who have been ordered to participate.

It is expected that the railroad board will request the carriers to refrain for the present from demanding a slash in the pay of their workers. The men, it is anticipated, will be requested to rescind their October 30 strike order.

ENGINEERS ORDERED TO IGNORE SUMMONS CLEVELAND, O., Oct. 25.—(By the Associated Press)—W. S. Stone, president of the Brotherhood of Locomotive Engineers, today confirmed reports that he has advised the general chairman of the engineers that he need not respond to the citation of the Railroad Board to appear before the board in Chicago tomorrow by making public telegrams exchanged between Chairman R. M. Barton of the board and the "big five" railroads.

Chairman Barton last night wired President Stone that the board's order included the general chairman. The reply to Chairman Barton's message follows:

Very evident that you have statements of the several executives confused. Lee stated it would require action of chairmen and committees on individual roads. Mr. Shepard, Carter, Cushman and Stone stated the executive committees and grand officers had full power to represent them and make satisfactory settlements. We have notified executive committees to be present. We are also advised you are calling in chairmen of all short line and electric roads, for what purpose we do not know, as these men are not involved in present controversy. They are asking for instructions what to do and we are not replying. We understand and will reimburse them for time lost railroad fare and expenses."

Western Pacific to Operate Trains

SAN FRANCISCO, Oct. 25.—Injunction to operate trains with such crews as available in the event the railroad strike order goes into effect, was announced by the Western Pacific railroad here today.

The company said it would advertise for emergency crews.

Motor Truck Lines May Carry U. S. Mail

SACRAMENTO, Oct. 25.—Acting on instructions from Washington, Postmaster Thomas Fox yesterday issued a notice to Sacramento valley motor truck lines calling for bids for carrying United States mail during the emergency which may arise from the proposed railroad strike. The bids asked for would cover practically all points in the valley and to Stockton.

Goethals to Command N. Y. Supply System

NEW YORK, Oct. 25.—Major General George W. Goethals, U. S. A., retired, was selected to be commander-in-chief of an emergency supply system for the metropolitan area of New York, in the event of a railroad strike or a meeting of federal, state and army officials held by the Port of New York authorities today.

The system would include motor trucks, barges, airplanes and other forms of transportation.

200,000 Union Men Forbidden to Strike

CLEVELAND, O., Oct. 25.—Notices were sent from the national headquarters here of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees numbering more than 200,000 members, that the organization is not in sympathy with the proposed strike and members are ordered not to obey the order to cease work.

S. P. Electric Train Kills Richmond Man

BERKLEY, Oct. 25.—The body of Anton Marken, 789 Seventh street, Richmond, was found beside the Southern Pacific electric tracks at Ninth and Jones street late last night. It is thought that he stepped into the side of a moving train and was crushed by the rear wheels.

An investigation made today established the fact that Marken met his death early in the evening and that the body was not discovered until 11:50, when Mortimer H. Mueller, 1132 Chestnut street, Oakland, saw the body and stopped his train. Pieces of clothing found on the rear trucks of the train driven by J. Taylor, 1482 Shattuck avenue, indicate that it was into the side of the train that Marken walked or fell. Taylor saw no one on the tracks and knew nothing of the accident until hours after it had taken place.

HEALTH IS CLOVED OUT. BERKLEY, Oct. 25.—Herman Melville, vendor of literature at University and Shattuck avenues, planned to stage a closing out sale this morning. To display his wares he took possession of some 250 feet of iron fence along University avenue, hung advertising signs with quotations from Socialist leaders and apparently disappeared in search of his stock. Along came the police and confiscated the signs and symbols. The authorities are hunting Melville. The sale did not materialize as advertised.

What is said to be the highest one-piece structure yet built is a concrete fireless tower, 400 feet high, at Tokyo, Japan.

FEW U. S. CITIZENS HAVE IMAGINATION EDISON CONTENTS

Inventor Derides Self-Government and School System in Interview.

(Continued from page 1)

was staring them in the face. The inventor's conclusion, again, that being so wonderfully developed today could have been produced almost as easily by the ancient Greeks as it was by us.

It is astounding how long things can remain right in front of us and not be observed, or at least not understood. Humboldt said it was a standing reflection upon science that it did not understand and therefore could not explain the passage of force between the two ends of a horseshoe magnet. It is just as much of a reflection upon us that we do not yet understand how a bird sustains itself in the air without flapping its wings."

GENERATIONS PRODUCE THAT SAME TWO PER CENT. The fact that each generation produces two per cent who are able to understand a self-evident fact when plainly stated, Edison said, seemed to indicate that there were laws in operation that produced the two per cent. Edison was asked if he did not consider that the two per cent were created by the fortuitous operation of natural laws and he said he did not. He then asked if he believed it might be possible to describe the laws that create superior beings and consequently speed at which humanity is intellectually improved.

The possibility already exists in theory," he replied, "and it will exist in fact as soon as we learn more about the laws that produce brain power. At present we know very little about these laws. It is all a matter of association. I mean by that it is a matter of the association of the little yellow and of us that contain whatever intelligence we possess. We are made of cells and some, but not all of these cells, manifest whatever intelligence we possess. Some parents happen to be suited to each other and their product has exceptional brain power. It is just like two men going into partnership. If they happen to be just the right kind of men and their product is suited to each other they may have a wonderful success at business. A thousand other partnerships fail and nobody knows why one succeeded and the others did not."

SCHOOL DOES INJURY UNLESS CHILD LIKES IT. "The important thing," he said, "is not to make young children study things they don't like. The moment school is not fun it is an injury. I do not know quite the age at which a child's mind atrophies but it is somewhere between the ages of 11 and 14. Make a child study what it does not like and keep this up until it is 14 years old and its brain is impaired forever."

BOY CHESS WIZARD CITED AS EXAMPLE. The kindergarten is the place to begin. Children like to learn if they are taught right. They have great curiosity. But they want to be interested. Our educational methods do not interest them. Change these methods and many more breaks will be produced."

Edison stopped, as he often does during an interview, and remained silent almost a minute. Then he looked up and said: "The possibilities for the development of the human brain are almost infinite. Think of that boy, 12 years old, who can play 25 games of chess at once and beat the best experts in the world. He is a prodigy, of course, but the prodigy only shows what we are all made of if we can only release our potentialities."

[To be continued tomorrow, when Edison will discuss "The Increasing Complexity of Human Life as a Menace to Civilization"]

MONEY PAID BY CHECK IN GAMES IS RECOVERABLE

LONDON, Oct. 25.—A far-reaching and for England, sensational decision has been rendered by the House of Lords in a ruling that money paid by check in settlement of a gambling debt, is recoverable by the loser.

The decision opens an avenue for possible litigation involving hundreds of thousands of pounds sterling, and the bookmakers who do a big business at all the race meetings, declare they may be ruined financially. They have called a special meeting to consider the situation.

Six Are Killed in Mexico Train Holdup

MEXICO CITY, Oct. 25 (By the Associated Press).—Government troops were engaged today in tracking a band of highwaymen which last night held up an express train at Atzacapatzaco, a suburb of this city, killing six persons, wounding five others and robbing the express car of packages valued at 200,000 pesos. The robbers fled in automobiles and vanished into the hills.

The express shipment was guarded by soldiers and when the train was stopped by the highwaymen the troops engaged in a sharp fight with the outlaws. So far as known all the killed were soldiers. It was believed here last night that there were no American passengers on the train.

BUSINESS MEN TO SUPPORT SCOUTS; DINNERS PLANNED

First of Series of Meetings Will Be Held Nov. 19 at Canyon Camp.

The first of a series of Boy Scout Institute meetings, arranged to develop Scout leadership and stimulate interest in the movement, will be held on the evening of November 14 at the Diamond Canyon camp of the Scouts.

A large number of Oakland business men will gather for dinner and to hear addresses by President Abe P. Leach of the local council William Harold Oliver, chairman of the committee on leadership and training, and Fred M. Hunter, superintendent of the Oakland schools.

Oliver will act as chairman. Leach will give the address on behalf of the Oakland council of Scouts, and Hunter will talk on "Why Scouts?"

All meetings after the first will be held at Mason hall at 745 Broadway in the evening, and will be on the following dates: November 2, December 5, December 12, December 19, January 9, January 16 and January 23.

The faculty of the Scout Institute, as announced today by Scout Executive H. J. Bemis, consists of:

Abe Leach, president of the Boy Scouts; Fred Hunter, superintendent of schools; Professor Earl G. Lindsey, scoutmaster of Troop No. 1; Harold O. Bryant, professor of vertebrate zoology; Dr. Eugene May, director of education of American Red Cross; G. E. Mortenson, school principal; Thomas L. Hosmer, Scout executive of Sacramento; George E. Konepny, Scout executive of Piedmont; Roy E. Marsh, Scout executive of Berkeley; C. A. Withington, field executive for the Oakland Boy Scouts; Homer J. Bemis, Oakland Scout executive; C. O. Dustin, Oakland recreation department, and the following scoutmasters from Oakland troops: Herbert Hauser, J. J. Scannell, Frank Herberth, George B. Cushing, C. P. Jackson, St. Claire Jones, Lynn A. Schloss and Paul A. Rollier.

Dr. George J. Fisher, deputy chief Scout executive for the national council of Boy Scouts, spoke yesterday before the Kiwanis Club at the Hotel Oakland. With L. McDonald, national camping director, he is making a tour of western cities urging greater support for the work.

BOOZE SHIPPED BY BOAT FAILS TO FIND OWNER

SAN FRANCISCO, Oct. 25.—After customs officers had lain in wait on the waterfront for four days, hoping to catch the culprit, Surveyor of the Port John S. Ivey today said that the steamer Austral had shipped a box of the Pacific Steamship Company's booze, which was being used as a booze runner. The chance breaking of one or two large packing cases led to the discovery of the liquor, and the fact that it was not for sale by the consignee is believed to have been due to tipping off of the seizure by stevedores working on the docks.

The two cases contained inside a total of five boxes of rum and two of vermouth, valued at several thousand dollars. They came evidently from Ecuador, but bore a Seattle manifest and were labeled "household effects." They were consigned to T. J. Walker, San Francisco.

The boxes, unloaded from the steamer at the pier one of them broke and sawdust rained forth. Customs Inspector E. D. Kellogg saw the situation, ordered the cases opened and discovered the liquor. The broken box was re-nailed and left for the arrival of the owner, but he failed to appear.

SUPERIOR JUDGE TO HEAR PAROLE PLEA AT NIGHT

Superior Judge J. S. Church will sit next Monday evening in judgment on the plea of D. J. Fairchild for probation. Fairchild is accused of robbery.

Fairchild, when arraigned today, asked for probation, but there was no one to vouch for him. He had not a moment for two weeks, said Judge Church.

"But I have a family to support and if I'm going to get probation I want to go home and get back to work," said Fairchild. "If I'm not going to get probation I want to begin serving sentence and get it over with."

"This is an unusual situation and we'll take unusual action," said Judge Church. "We'll hold night court. Next Monday evening at 8:30 o'clock I will hear your petition."

MINER CLAIMS A \$12,000 LOSS THROUGH THEFT

SAN FRANCISCO, Oct. 25.—Thomas Lennon is in delinquent at the city prison today while the police are endeavoring to determine the truth of a claim that he was robbed of \$12,000 while in his room in a hotel at 156 Third street, during the night.

Lennon was picked up by Patrolmen Oliver and J. K. Rieth in a vacant lot at Third and Howard streets, in a dazed state. He gave the name of O'Brien, said he was a miner and lumber worker on the third floor of the month, drawn \$12,000 from the First National bank last week, coming here with the money in a belt strapped around his waist.

At the officers found J. W. W. literature in his room, discovered he was registered under the name of Lennon, and discovering some cocaine, charged him with violating the poison law. He said he had given shelter to a stranger, who he thought had robbed and drugged him, as he had no recollection of leaving his room.

Dimond Pays Tribute To Its Hero Dead

Every place of business in the Dimond district closed yesterday in honor of Otto J. Carlsen, whose body was returned from overseas, and whose funeral was held yesterday afternoon from the home of his parents, Mr. and Mrs. Jorgen Carlsen, 3722 Laguna avenue. The entire district turned out for the services.

Carlsen, who was a butcher in the Dimond district prior to the war, was a member of the Signal Corps, 363d Infantry. He was killed in the Argonne on September 25 by machine gun fire.

Carlsen was proprietor of the Hopkins street market in Dimond. Besides his parents he is survived by three brothers, Sven Carlsen, Adolph Carlsen and Paul Carlsen.

Foster Invited to Conference on Dope

City Health Officer Harry Foster today received from the State Board of Health notification of a meeting in San Francisco on Thursday at 3 p. m. when federal, state and city health officers will consider the narcotic question. Governor Stephens, Mayor Rolph and members of the federal and state health boards will be among the speakers.

Dr. Foster asserts that he expects to attend, but says that the real way of handling this sort of question appears to be through education first, after which laws can be enforced with more ease and intelligence. "Foster may give a few remarks at the conference."

Prisoner Leaps From Fast Flying Train

LOS ANGELES, Oct. 25.—Jumping from a train early today while it was running in excess of forty miles an hour, Charles Haynes, a prisoner en route to Santa Ana, escaped from the custody of Deputy Sheriff J. R. Fowler of the latter city.

Haynes was being taken from Red Bluff to Santa Ana to answer a charge of stealing an automobile. Railroad officials and city duty sheriffs immediately instituted a search of the right-of-way near Newhall for the man's body, believing Haynes to have been killed by the jump.

OAKLAND VESSEL VICTIM OF '13' JINX FOR YEARS

Log of Schooner Sailor Boy Is a Lengthy Recital of Misfortunes.

A tale of a three-masted schooner fit to rank with any of the strange adventures recorded by Jack London, is contained in the log book on board a craft now in Honolulu.

Eleven years ago the Sailor Boy, 228 tons gross register, built in 1883 at South Bend, Ind., rode proudly on the waters of the Oakland estuary. At that time she held a record for sea-going that was hard to beat. Then came a trip to the South Seas and the hoodoo had rooted in her topmast ever since.

For the past several years Erratt Maher and W. E. Maher of San Francisco have sailed on the craft. They have returned a note and never again, they say, will they venture aboard her.

COUPLED WITH "13."

The hoodoo is coupled with the number "13," and the log book records the following:

On Friday, December 23, 1910, Sailor Boy set sail from San Francisco. Seven days out the ship's motor went wrong and struck thirteen times. A heavy sea carried away the starboard fore rigging and head sails and split the sparker. The little craft limped back into San Francisco, where the clock was repaired and the sails mended.

On Friday, January 13, the ship set sail for Fanning Island. (Note the thirteen letters in the name.) The ship arrived again on Friday, and that night the clock went wrong again, striking thirteen times. The cook counted the strokes and the next morning was far away, having mooned during the night. The ship arrived at Washington island on March 13 and Tarawa island was reached a month later to the day.

SOME MORE THIRTEENS.

Proceeding, the ship weighed anchor again on Friday. The high commissioner on Ocean Island sent the ship back to Tarawa because the skipper had forgotten a license to re-entrain trade. Tarawa was reached on May 13. The following Friday the ship set sail again for Fanning Island, its destination. On the following Friday the wind died and the ship drifted. On July 13 the ship reached the lagoon on the outskirts of Fanning Island. A ten-knot current carried it high and dry, where it rested for thirteen days and nights on the reef. The clock struck thirteen times every midnight.

During the following year, on Friday, August 15, and again on Friday, September 15, the ship was over the craft. Her hold full of water and all masts gone, she was towed into Hawaii. She reached Honolulu on the following September on the thirteenth day of the month.

On the Sailor Boy's last voyage the old clock repeatedly struck thirteen times and thirteen pieces of cargo were missing when she reached port. Her skipper sent a cablegram to the Hawaiian Pineapple company, her owners, to inform them of the loss. The clerk collected for thirteen words.

"That let me out," said W. E. Maher. "I'm through with her forever."

MEXICAN "PLOT" BLOWS UP; ARMS ARE FOR MOVIES

LOS ANGELES, Oct. 25.—A reported plot to ship arms into Lower California for a new revolution, which created excitement along the international border, today assumed the role of a plot to stage a motion picture production.

A. Flahive of Los Angeles and his sons, Jack and Frank Flahive, are at liberty after being held for twenty-four hours in the San Diego county jail on suspicion of having attempted to smuggle arms into Mexico.

Government officers who seized trucks laden with rifles and ammunition in charge of Flahive and his sons announced they had received orders from Washington to release the suspects because of insufficient evidence to support the plot charge.

Flahive declared that he was on the border with the arms to stage a motion picture battle scene and that the arrest was the result of a misunderstanding.

Aviators Charting Mississippi Missing

PENSACOLA, Fla., Oct. 25.—No word has been received today as to the probable fate of Lieutenant Darby and Chief Machinist Mate Wendel, naval fliers, who disappeared while making air photographs of the Mississippi delta. It is feared they have met disaster in the Gulf of Mexico. They were in one of three machines engaged in photographing the Mississippi. When last seen Lieutenant Darby reported to Lieutenant Mate that his gas supply had been exhausted. The machine was of the P-6-L type.

WASHINGTON, Oct. 25.—The navy department today ordered four naval vessels to put out into the Gulf of Mexico in search of the missing seaplane No. 883. Reports to the navy department stated that a gale blowing on the gulf made it impossible for aircraft to join in the search.

Senate to Force Action on Tax Bill

WASHINGTON, Oct. 25.—Normal tax rates of 4 per cent on the first \$4000 of income and 8 per cent on all over that amount were approved today by the Senate without a record vote. These are the rates now in force.

The action on the tax bill began with the announcement of a new plan by the Republican majority to keep the Senate in continuous session, beginning tomorrow, until the bill is passed. It is planned to keep a quorum present day and night and prevent a recess or adjournment in order to reach a final agreement and vote.

Without a record vote the Senate adopted an amendment by Senator Hitchcock, Democrat, Nebraska, under which interest paid in 1921 and 1922 on indebtedness incurred to purchase of carry over tax exempt securities issued by the United States would not be deductible for purposes of determining net income.

Tests of electrically welded ship plates show as great strength as the unbroken plate.

China has adopted a system of subsidizing to encourage growth of her merchant marine.

Harding to Speak in Two Southern Cities

WASHINGTON, Oct. 25.—President Harding will speak today for a three-day trip into the south, which will be featured by important speeches at Atlanta and Birmingham. It will be the President's last trip before the armament limitation conference opens in Washington less than three weeks hence.

Accompanying the President were Mrs. Harding, Secretary of War Weeks, Secretary of the Interior Fall, Senator and Mrs. Oscar Underwood of Alabama, Secretary of Commerce B. Christian, Dr. Sawyer, Colonel C. O. Sherill and Captain R. S. Holmes, military and naval aides; Judson C. Welliver, newspaper men and secret service operatives.

Poisoned Barley to Be Fed to Squirrels

BERKELEY, Oct. 25.—The City Council has authorized the purchase of 2000 pounds of poisoned barley to be used in exterminating the ground squirrels that infest the city's football fields. The authorization was made at the request of the United States Board of Health, officials of which will have charge of the work of extermination.

The council also appropriated money for the employment of four men to kill the rats that infest the waterfront. This was done following numerous complaints that rats are causing damage in the waterfront warehouses. The work will be done by poison and by the use of traps.

Fugitive Road Camp Convicts Recaptured

REDDING, Oct. 25.—Two convicts, Otis Iggitt and Frank Von Bolarski, who escaped from a prison road camp at Big Bar, Fresno county, were captured here today by sheriffs operatives after a four-day pursuit through the forests.

Both men have still five years to serve on seven-year sentences. They will be returned to Folsom prison tonight.

Britain Must Care For 500,000 Jobless

LONDON, Oct. 25.—Nearly 500,000 persons will be without employment in Great Britain throughout the coming winter, declared F. J. McNamara, minister of labor, last night, during debate in the House of Commons on the employment bill. The government, he said, had decided to extend the scope of the measure so that it would apply to Ireland.

Britain Must Care For 500,000 Jobless

LONDON, Oct. 25.—Nearly 500,000 persons will be without employment in Great Britain throughout the coming winter, declared F. J. McNamara, minister of labor, last night, during debate in the House of Commons on the employment bill. The government, he said, had decided to extend the scope of the measure so that it would apply to Ireland.

ARTISTS MAKE UP TOKYO CABINET

TOKYO, Oct. 25.—Japan has a list of artists and Premier Hamada the list. Writings and paintings of some of the great men of the past are being brought to the recent auction held by the Tokyo Art Club.

Three pictures painted by Hara for the equivalent of \$600, and other of four brought about \$300. Prince Yamagata's production brought about \$250 to \$300, while a Kakemono, written with problems in the Japanese language, by one Satomi, brought from \$200 to \$300.

A chrysanthemum, painted by one of the artists of communication, sold for \$60, and an orchid in his brush brought \$70.

Yamamoto, minister of agriculture and commerce, had a picture, and Iwano, the home minister, a picture of the Japanese.

SURGERY GIVEN NEW ASPECT BY WAR, MAYOR SAYS

PHILADELPHIA, Pa., Oct. 25.—Surgeons are advancing into a new era opened by the world war. Dr. William J. Mayo of Rochester, Minn., told the American College of Surgeons at the opening of its annual congress here last night.

"The great war brought to a close a period in scientific surgery, of which the late Dr. John E. Murphy of Chicago was the most brilliant exponent," said Dr. Mayo, in delivering the John E. Murphy oration on surgery.

"This period was characterized by the advancement of the principles of surgery, investigation of the relation of micro-organisms to disease, and the development of clinical medicine on a pathologic basis."

"As a result of many causes of which the profound influence of the great war may be counted as one, we see, perhaps dimly, that surgery is taking on a new aspect."

"It is no longer possible for the individual surgeon, in the face of the enormous amount of new and, as yet, unorganized knowledge, to cover the ground that Murphy covered."

U. S. STUDENTS IN FRENCH SCHOOLS

NEW YORK, Oct. 25.—American students from 43 states and the District of Columbia, graduates of 103 American universities and colleges, are now studying in French universities, Professor Earle B. Babcock, reports on his return to New York University after serving as director of the American University Union in Paris.

The largest number of American students, 524 men and women, since the beginning of the war are registered at the union. Before the war between 1100 and 2500 students were studying in Paris every year. As the result of the work of the union and the American Council on Education, all the French state degrees are accessible to foreigners except that of doctor of letters, Professor Babcock said.

Professor Paul Van Dyke of Princeton will be director of the union for 1921-22.

Because our fixtures are not completed, the opening of this new department is unusual. We are more than making up for this condition in the values offered!

Public Speaking Will Be Extension Course

Among newly scheduled courses offered by the University of California extension division to Oakland is Professor Dwight E. Watkins' class in public speaking, the first session of which is announced for November 7, at 108 Hotel Oakland, at 7:30 p. m. In response to requests for a course in novel writing, the extension division has scheduled a lecture series, with Miss Rebecca Porter as instructor. She will begin her evening classes Wednesday, November 2, at 7:30 p. m., at Hotel Oakland.

A Frenchman claims an invention to make steel from iron in five hours.

ALL AMERICANS IN MANILAGO TO WOOD RECEPTION

MANILA, Oct. 25.—Virtually every American in the city of Manila attended the reception and ball given last night by the American Chamber of Commerce in honor of Governor General Leonard Wood. Only American citizens were invited.

The Canadian Cruiser, 10,500 dead weight tons, recently launched at Halifax, is the largest vessel built to date in Canadian yards.

Rebekah's President At Berkeley Lodge

BERKELEY, Oct. 25.—Fannie Al. Clancy, grand president of the Rebekah Assembly, paid an official visit to Berkeley Rebekah lodge on Wednesday night. She was accompanied by District Deputy Martha Davis, Grand Secretary Stella Cyrus, Grand Treasurer Lois Wyckoff, P. G. M. H. Brunk, P. G. Patriarch, J. E. Streight, P. G. President Louise Paltenghi, P. G. M. William Nicholas and D. D. G. M. D. S. Williams. Berkeley Canton put on a drill under the direction of William Neiman. H. Brunk was toastmaster at the banquet.

San Francisco News

LOOSE KNOT IS TIED FOR THIS WEDDING COUPLE

SAN FRANCISCO, Oct. 25.—Countess Mariana Wentworth de Lowe, widow of a French army officer, artist, playwright, psychologist and devotee of sports, and Milton Weston Hyatt, actor, minister, author, globe trotter and veteran of two wars, were married yesterday, twelve hours after they had become acquainted.

According to both Mr. and Mrs. Hyatt, they will go on living their own lives. That is, they will still be man and wife, but should one desire to go to the theater or to dinner with some other person, there will be no petty jealousies between them. The countess will continue her writing. The bridegroom will continue with his lectures and research work. For their marriage journey the couple donned hiking clothes and made a trip to the top of Mount Tamalpais.

Kincaid Director Of Shipping Board

SAN FRANCISCO, Oct. 25.—William Kincaid, manager of the operating department of the San Francisco division of the United States Shipping Board, has been appointed as the temporary director of the board, whose resignation takes effect Monday. Kincaid has served in executive capacity with the board for the past three years and is declared to be the logical choice of the local shipping fraternity. He was with the Pacific Mail Steamship company for over eight years and was general passenger agent for the Northern Commercial company for twelve years.

MacSwiney Memorial Mass Meeting Held

SAN FRANCISCO, Oct. 25.—A memorial mass meeting in honor of Terence MacSwiney was held last night at Dreamland pavilion, marking the first anniversary of the Irish leader's death. The program was directed by the San Francisco council of the American Association for the recognition of the Irish Republic. Edward F. Moran presided.

Rev. P. C. York, D. D., said high tribute to the sacrifice of the late Lord Mayor of Cork, who died in Brixton prison as the result of a hunger strike.

DANCE FOR UNEMPLOYED. The Eastbay Social Club, giving dances every Saturday night in MacChinist hall, between 11th and 12th streets, announces a special benefit dance for the unemployed of the city on October 29.

CONSPIRACY IS MAN'S REPLY IN DIVORCE CASE

SAN FRANCISCO, Oct. 25.—That he was chosen from among many by Dr. Gabor Kingstone to marry Kingstone's ex-third wife, to relieve the latter of paying \$200 a month alimony, is the allegation which Reggie Morley, manager of the Italian-American Oil company, says he will make when he files answer to a divorce complaint filed by Mrs. Ruby Armstrong Kingstone Morley.

Morley says that Dr. Kingstone was best man at the wedding. He says he met the former Mrs. Kingstone at a party, where several guests, among them Dr. Kingstone, were in attendance. One of the guests proposed that he marry Mrs. Kingstone, whereupon Dr. Kingstone insisted also, saying that it would be a fine match. He proposed and they were married the next morning. Immediately after the wedding Dr. Kingstone insisted that the newlyweds make their home with him, says Morley.

Six Are Robbed by Automobile Bandits

SAN FRANCISCO, Oct. 25.—Three automobile bandits held up and robbed six persons last night in a series of hold-ups throughout the city. Ten shotgun squads toured the city most of the night, but failed to find traces of the highwaymen. The bandits first stole an automobile in which they made a tour of the city. They robbed Frank Brozowski, 1245 Third street, of \$40; William Lawie at Broadway and Octavia, \$30; Joseph Moriarty, 49 Albino avenue, \$10; J. E. Guthrie, 220 Eleventh street, \$15; Laurie Wick, 221 Chantanooga street, \$27; Harold Stalling, 722 Clayton street, \$23; Ernest Craws, 193 Belvedere street, \$14.50.

MODERN DRESS DEPLORED BY WOMAN OF 101

SAN FRANCISCO, Oct. 25.—Nice things that young men say about girls and modern automobiles are responsible for the condition of society today, according to Mrs. Mary Martin Davis, an inmate of the "Old People's Home" at 2507 Pine street, who is 101 years old. She deplores the Lord Mayor of Cork, who died in Brixton prison as the result of a hunger strike.

CONVICT RAISES FAMILY'S CROPS, GIVES SELF UP

FRANKFORT, Ky., Oct. 25.—Zeke Anderson, a mountaineer of near Elkhorn City, in Pike county, who escaped from the Rock Castle convict and made a crop, so his family would have food next winter. Today he gave himself up at the State reformatory.

Belshaw Estate Is Taxed for \$42,296

MARTINEZ, Oct. 25.—The state has fixed the inheritance tax in the Charles Mortimer Belshaw \$500,000 estate at \$42,296.21, according to the report of the inheritance tax appraiser filed today with County Clerk J. H. Wells. With the filing of the report, Harry W. Spencer of Oakland filed a protest, claiming that the appraiser is in error in making a tax of approximately \$600 on an item of \$550, which, he says, should not properly be included in the estate as subject to tax. Spencer is a son of Mrs. Belshaw, who, with her husband, was killed in an automobile accident three years ago. The estate is now the subject of a contest.

NORTHWEST GALE WEEPING TOWARD PACIFIC SEABOARD

Rain and Heavy Winds North
of Cape Blanco Predicted
for Tomorrow.

Strong southerly to southwesterly
lees were predicted for the Pacific
coast tomorrow north of Cape
Blanco by the United States Weather

Bureau and storm warnings were
ordered issued at all Washington
and Oregon stations. The bureau's
warnings said that the storm is
moving southeast from the North Pacific
coast. With the storm along the sea-
board came rain and probably rain
forecasts for all of the state but
Southern California. "where fair
and warmer" is predicted. The local
production is for showers tonight
and tomorrow.

ITALIANS GRANTED AMNESTY
ROME, Oct. 25.—The king and
queen of Italy yesterday celebrated
the silver anniversary of their wed-
ding. The city was decorated with
flags and all schools were closed in
connection with the celebration. The
Italian government granted amnesty
to participants in the recent political
disturbances between the Fascist
and Socialists, as well as to human
legionaries who participated in re-
cent disorders.

15 FREED FROM PRISON BY WOOD

MANILA, Oct. 25.—Fifteen pris-
oners confined in prisons throughout
the islands were pardoned today by
Governor-General Leonard Wood.
Two of the pardoned men were
serving life terms following conviction
on charges of murder.
All the pardons were recom-
mended by the Wood-Parkes commis-
sion following its investigation of island
prisons, and were based on reasons
of advanced age and good character.
A concrete wall is being built on
the Esca coast to stop erosion.

Still Explodes; Barn, Hay Burn; Damage \$30,000

Oakland Bootleggers' Supply
Source At San Jose
Destroyed.

SAN JOSE, Oct. 25.—An explosion,
which wrecked what police believe is
the source of supply for a number
of Oakland bootleggers, occurred
here shortly before noon today when
a fifty-gallon still on the premises of
Joseph Robin, 1513 East San Antonio
street, blew up, destroying a barn,
several tons of hay, other nearby
buildings and caused damage esti-
mated at about \$30,000.

The shock of the explosion could
be felt throughout the eastern sec-
tion of the city, and residents feared
for a time that it was a repetition of
the recent bomb outrage. Police de-
clare that immediately following the
explosion, two men, who had ap-
parently been operating the still,
pumped in an automobile and made
their escape. They were headed to-
wards Oakland and police of that
city have been asked to be on the
lookout and pick them up.

In addition to the large barn in
which the liquor making apparatus
was located, the explosion destroyed
two wagons several tons of hay,
several nearby outbuildings, 500 gal-
lons of Jackass brandy, three other
fifty-gallon stills and fifty barrels
of mash.
Robins, who police declare is the
proprietor of a soft drink saloon in
Oakland, could not be found after
the explosion. Police say that the
plant was the source of supply for
a number of bootleggers in that city
and that a wholesale business was
being carried on.

DIED

HALJEIRO—In Santa Cruz, Oct. 24,
1921, Macalina G., wife of the late
Augusto V. Baliero, devoted sister
of Manuel L. Caldeira, of Santa
Cruz, a native of Azores, aged 80
years.

Friends and acquaintances are re-
spectfully invited to attend the
funeral Wednesday, Oct. 26, 1921,
at 9 a. m., from the parlors of Cunha
& Caporale, 923 E. 14th st., Oak-
land, thence to Saint Joseph's church,
where a requiem high mass will be
celebrated for the repose of her soul
commencing at 9 o'clock.

BORDOLI—In this city, Oct. 23, 1921,
Marie Carolyn Bordoli, dearly be-
loved daughter of Mr. and Mrs.
James Bordoli, sister of Chester B.
Tym, grand daughter of Mrs. Mary
Nessler, a native of California, aged
13 years 2 months 21 days.

Friends and acquaintances are re-
spectfully invited to attend the
funeral Wednesday, Oct. 26, from
her late residence, 1293 76th ave.,
thence to St. Bernard's church, 82nd
ave., where a requiem mass will be
celebrated for the repose of her soul,
commencing at 10 o'clock a. m. In-
terment, St. Mary's cemetery.

COLLINS—In this city, October 24,
1921, William C. Collins, be-
loved son of William and Eusebia
Collins, a member of Electrical
Workers Union No. 535 of Oakland,
a native of San Francisco, aged
22 years 8 months and 27
days.

Friends are invited to attend the
funeral services Wednesday, Octo-
ber 26, 1921, at 3 o'clock p. m.,
at the residence chapel of the Tru-
man Undertaking Company, Tele-
graph avenue at 30th st., Oakland.

HOOGUE—In this city, Oct. 24, 1921,
Mary Jane Hogue, beloved wife of
C. Charles Hogue, of Hesperia, Sonoma
county, a native of New York, aged
68 years, 8 months, 10 days, please
copy.

Friends are invited to attend the
funeral services Wednesday, Octo-
ber 26, 1921, at 10 o'clock a. m.,
at the residence chapel of the Tru-
man Undertaking Company, Tele-
graph avenue at 30th st., Oakland.

MAITLAND—In this city, October
23, 1921, Maria, dearly beloved wife
of John Maitland, a native of
Italy, aged 35 years.

Friends and acquaintances are re-
spectfully invited to attend the
funeral Wednesday, Oct. 26, 1921,
at 3 o'clock p. m., from the parlors of
Cunha & Caporale, 923 E. 14th st., Oak-
land, thence to Saint Joseph's church
for blessing. Interment, St.
Mary's cemetery.

OPENING OF ARMS CONFERENCE WILL GO OVER ONE DAY

Washington Parley, Set for
Armistice Day, Will Be De-
layed Until Nov. 12.

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.

WASHINGTON, Oct. 25.—Post-
ponement of the opening meeting of
the international conference on arma-
ment and Eastern affairs until
the morning of November 12 was in-
dicated as probable by high officials
today.

Conflict between the program as
originally drafted for the conference
and that for the ceremonies incident
to Armistice Day burial of America's
unknown soldier was given as the
reason for the probable postponement.

It had been assumed by officials
that Secretary Hughes would pre-
side and call together the initial
meeting of the conference on
Armistice Day. In the event the
first meeting is held on the morning
of November 12, as it appeared prob-
able today, the conference would be
addressed by President Harding im-
mediately on convening.

The American delegation has not
considered the question of reduc-
tion in the land military establish-
ment. The position of some officials
was indicated today as being that
nothing on the subject of land forces
had been found to make considera-
tion of the question and that the
American army's strength was now
reduced to a minimum.

Informal suggestions that the
armaments conference would con-
sider the question of international
exchange and other phases of finance
met with flat denial.
The fact that none of the na-
tions invited to the armaments con-
ference had sent financial leaders to
the Washington conference was
construed as indicating that it also
was not their intention to bring in
the question of international finance.

FINANCE NOT ISSUE.
The United States has not pro-
posed that the question of the allied
debts be considered at the forthcom-
ing armaments conference, nor has it
received any suggestions from any
other power, it was officially stated
today.

The state department does not be-
lieve that any nation has any inten-
tion of bringing this matter before
the conference, it was said. The
various delegations contain no finan-
cial experts and would be unfitted to
deal with the matter of debts.

SECRET SESSIONS.

SAN FRANCISCO, Oct. 25.—The
American government alone cannot
determine the policy to be followed
respecting the sessions of the dis-
armament conference and the East
Eastern agenda, President Harding
said in a personal letter received to-
day by Ed Gammon, a writer of this
city. The letter said in part:
"I am sure you understand that
the American government alone can-
not determine the policy to be fol-
lowed respecting open sessions, be-
cause other nations are to be consid-
ered in arranging the program to be
followed. I assume that it is fair to
say that differences of opinion on
this subject do not suggest differing
degrees of good intention or patriotic
concern for the affairs of our own
country."

The letter was sent in reply to one
from Gammon requesting that the
Wilson policy of "open covenants,
openly arrived at," be a feature of
the international conference in its re-
lation to the public at large.

PARIS, Oct. 25.—The Italian dele- gation to the armaments conference in Washington arrived in Paris this morning en route to the United States.

LOYD GEORGE SAILING

NEW YORK, Oct. 25.—The
 Cunard line announced today that
the Aquitania, bringing Prime Minis-
ter Lloyd George and his official
party to the armaments conference
at Washington, would sail from
Southampton November 3, two days
ahead of regular schedule.

A. M. Brace and Mrs. Florence E.
Bullerbach, a native of Oregon.
WALLACE—In this city, Oct. 23, 1921,
Frederick S. Wallace, beloved hus-
band of the late Sarah A. Wallace,
and stepfather of Arthur L. Bonney
of San Francisco and Dr. Charles
V. Bonney of Philadelphia, a na-
tive of Milbridge, Maine, aged 83
years.

Friends are invited to attend the
funeral services Wednesday, Oct. 26,
1921, at 2 o'clock p. m., at the
chapel of the California Cremator-
ium, 429 Broadway, at Grand and
Mr. Wallace is at the residence
chapel of the Truman Undertaking
Company, Telegraph av. at 26th st.

CARD OF THANKS.

We wish to thank many friends
and acquaintances for their beautiful
floral offerings and kind sympathy
MRS. C. F. WEAKLEY.

C. F. WEAKLEY, JR.
MR. AND MRS. F. A. NEWBERRY
of Berkeley.

CITIZENSHIP FOR ALL INDIANS IS CONCLAVE TOPIC

Delegates From 500 Tribes to
Attend Convention in
Detroit.

DETROIT, Mich., Oct. 25.—Abolition of the United States Indian bureau and the granting of full citizenship to all American Indians will be the chief subjects considered at the international convention of American Indians, to be held here October 25 to 31.

Delegates from each of the 500 Indian tribes and others of the race who have become prominent figures in American life are expected to attend.

One of the convention features will be the opening session, when the pipe of peace will be smoked by the Indians and the city officials.

On Saturday, October 29, a native fete day will be observed. The visiting delegates are to don the costume of the native tribes and stage an Indian play.

Among the prominent persons invited to attend the convention are: William S. Hart, moving picture actor; Thomas L. Sloan, president of the Society of American Indians and attorney for the United States Interior Department; William Madison, legal chief of the Chippewa; Dr. Sherman Coe, canon of St. John's cathedral, Denver; Dr. Carlos Montezuma, a Chicago physician, and Rev. Philip Gordon, Catholic priest of Reserve, Wis.

DEAD HERO HONORED.
WASHINGTON, Oct. 25.—The name of the public health service hospital at Chicago, formerly known as the Speedway Hospital, has been changed to the Edward Hines Jr. Hospital in honor of Lieutenant Edward Hines Jr., U. S. A., who died overseas in 1918, Secretary Mellon has announced.

What's Happening in the Motor World

by Jim Houlahan

An announcement of more than passing interest on the Row is the price reduction on Essex cars. The last reduction just made opens up a new field of buyers for the Essex.

"With the present prevailing list, Essex is selling for considerably less than it ever did before," states E. A. Hamlin of Hamlin & Wichman, Eastbay dealers.

"This new price includes cord tire equipment on all models, a factor which amounts to still another substantial reduction.

"Shipments are coming through from Detroit in good style.

"Coming soon after the announcement of a new model Essex, with refinements and improvements, we received news of the price reduction with a sensation among motor enthusiasts in the Eastbay.

"The Essex is now selling for less than before the war. It is better than ever. Refinements have been included in the present model, which give it more power and greater hill-climbing ability.

"We have been busy for more than a week explaining the new features of the car and in showing their speed and power. The prices of them are \$300 under those prevailing before the war.

"The announcement of the Essex price drop comes right on the heels of the announcement of the new Hudson car. Hudson and Essex are built by the same men. The Hudson was changed in many places to give it more power and speed and to make it easier to handle.

"Throughout the years, Hudson and Essex engineers have done a great deal to make both cars better. There has been no standing still in the development of the cars. The improvement of both Hudson and Essex cars proves that progress had been, and is being, made every day.

"We have tested the new Essex over every hill in the Eastbay cities, and it goes over all them very satisfactorily.

"We expect a huge winter demand for both cars and are ordering cars accordingly."

ROOSEVELT WILL BE PAID HONOR BY BOY SCOUTS

Medals and Badges Are to Be
Awarded to Lads of
Piedmont.

PIEDMONT, Oct. 25.—Boy Scouts of the Piedmont Council will gather Thursday evening at the Piedmont Interdenominational church, Mountain and Highland avenues, to pay tribute to the memory of Theodore Roosevelt, late Chief Scout Citizen of the National Council, Boy Scouts of America, the occasion being the anniversary of his birth. All citizens desiring to honor the memory of this American are invited to attend the meeting.

"The Boy Scout Court of Honor will be held tomorrow evening in the council chambers of the Piedmont city hall, the scouts appearing for their honor medals and badges of merit. This court is composed of Judge Everett Brown, chairman; Mayor Oliver Ellsworth of Piedmont; Wallace M. Alexander, president of the San Francisco Chamber of Commerce and also president of the Piedmont Boy Scouts; H. W. Jones, Piedmont superintendent of schools; Walter S. Brann, member of the board of education; Dr. J. D. Griswold, Dr. H. D. Bell, Willard Brown, Paul S. Black, Colonel W. J. Barrett and other representative citizens of Piedmont. The boys who will appear before the court are as follows:

First class—Arthur Burke.
Merit badges—Charles Merrill, marksmanship, cycling; Anthony Frasin, first aid, cooking; Harold Corbin, athletics; Willis Parkes, chemistry; Richard Harvey, path-finding, automobile, civics; Arthur Westlund, marksmanship, handicraft; Fred Anderson, civics; Gordon Borderson, fireman, safety first; Jack Sherwin, mining; Dudley Nebeker, first aid; Rowan Galtner, first aid to animals, personal health, fireman, camping, public carpentry; John Martin, first aid; LaVern Corbin, first aid; Arthur Hargrave, swimming, fireman; Wilson Stearns, personal health, safety first, public health, fireman.

Oil Scarce, Gas Men To Go Back to Coal

CHICAGO, Oct. 25.—As a result of increasingly heavy demands made upon the oil resources of the nation, the manufactured gas industry is now on the verge of its third revolutionary change, according to engineers members of the American Gas Association, who will discuss this subject at the annual meeting of the association here on November 7 to 12.

The gas industry of the United States at present uses approximately one billion gallons of oil annually, according to these engineers. High prices of petroleum products, resulting from their wide and varied use, and the probability that shale oil will not be a suitable substitute, makes it practically certain that coal will be the only fuel used in the future by manufacturers of artificial gas, such as is used for cooking and illumination of homes of 40,000,000 Americans and in thousands of industries, the engineers claim.

Demonstration of Fireless Cooking

This week the women of this city will have an unusual opportunity of finding out what the remarkably efficient Domestic Science Fireless Cookstove can do in actual service. They will see it bake and brown more beautifully than most ranges do, and with only a fraction of the fuel their ranges require. We want you to be among the women who will see and taste the delicious cooking results of the Domestic Science Fireless Cookstoves.

S. F. STOCK SHOW FORMALLY OPENS

SAN FRANCISCO, Oct. 25.—The California National Livestock show at Twelfth and Market streets was formally opened last night when thousands crowded the arena at the grounds where blooded stock is assembled from all over the west.

Mayor James Rolph Jr. officially opened the show with an address of welcome to the thousands of visitors.

"Tonight's audience proves that San Francisco loves horses and will support a show of this sort every year," the Mayor said. "The men responsible for this great exhibition of the finest horseflesh from the famous stables of the country are to be congratulated, and I take great pleasure in thanking them on behalf of the city of San Francisco."

A parade of pure bred livestock from the various exhibition palaces at the show grounds was held in the arena preceding the formal opening. All of the animals, blue ribbon winners from the best-known stock farms in the country, were groomed and dressed up for the occasion.

Officers from the Presidio gave San Franciscans some fine examples of expert horsemanship. The climax of the evening came when nearly a score of expert horsewomen and horsemen put their lightweight hunters over the hurdles.

ST. PAUL'S CHURCH WILL OPEN UNIT

The first unit of St. Paul's Methodist Episcopal church, Twelfth and Magnolia streets, which was finished recently, will be officially opened tomorrow night at the regular mid-week social gathering of the members of the church and community.

Bishop Adna Wright Leonard of the San Francisco area will be the speaker of the evening.

Construction on the first unit of the new church plant, which when completed is designed to be a community house, as well as a church, began last spring. The first unit is made up of a social hall and church auditorium. Construction on the second unit, which is a Sunday school room and social hall, is under way. When completed the church will occupy the square at Twelfth and Magnolia streets. It is estimated that it will cost more than \$50,000.

The service tomorrow evening will begin with a basket luncheon at 6:15. There will be several after-dinner speeches, after which the regular play hour which is a feature of the Wednesday evening meetings, will be held. Bishop Leonard will speak at 7:45. Rev. Alfred J. Kennedy, pastor of the church, has issued an invitation to the public to be present.

Man Exonerated for Killing His Brother

MORRILLTON, Ark., Oct. 25.—Charles Spier, 24, young farmer of Bostain, was exonerated by a coroner's jury for killing his brother, Arthur, 20, this morning. Evidence at the inquest was to the effect that Arthur drew a pistol when they neared their home and that Charles obtained a shot gun from the bed of a wagon in which he was riding. The men fired at each other almost simultaneously and the elder brother was killed. The bullet from Arthur's pistol struck Charles in the leg but did not injure him seriously. Witnesses testified that the dual was the second in which the brothers had engaged, and that although they were next door neighbors they had not spoken to each other in nearly two years.

Lecture-Tea to Aid Mills College Fund

A lecture-tea will be held at the residence of Mrs. C. J. Youngberg, 251 Perry street, on Thursday afternoon for the benefit of the Mills college endowment fund. Mrs. Grace Roberts Moore, class of '10, will present the lecture on "Babylon," concluding a series of lectures on Babylonian traditions, customs and literature. Mrs. Moore has much to offer.

Member of the class of '23 are disposing of 500 tickets for "Fay Bainter's play, 'East is West.'"

Are you a good cook?

Do you want to make some extra money?

¶ Christmas is one of the big feast days of the year, a day when home-cooked food, especially, is in order, for Christmas is the period of family reunions when folks are thinking of home and home-made things.

¶ Perhaps you have thought about making fruit cakes, mince meat, etc., for the Christmas trade, because you know what a demand there is for them, but have been unable to figure how to sell direct to the consumers and so realize the largest possible profit.

¶ One of the cheapest and most effective ways of reaching the consumers of Christmas articles of all kinds is to insert a Want Ad under Christmas Suggestions, a heading which runs in the Classified Columns during the holiday season.

¶ N. B.—Begin your preparations for the Christmas trade NOW.

PRACTICAL WORK OF MAKING MEN OF BOYS DEFINED

Scout Leaders Tell How Confidence Is Instilled and Efficiency Imparted.

The Boy Scout of today is the good citizen of tomorrow, and the Boy Scout doctrine is the antidote for the cynical and mercenary age under which the nation is now laboring, according to speakers affiliated with the national Boy Scout movement, who yesterday at a luncheon addressed members and guests of the Kiwanis Club at the Hotel Oakland. The speakers were L. L. McDonald, national director of camping, for the National Council of the Boy Scouts of America, and Dr. George J. Fisher, a member of the New York Kiwanis Club and also connected with the scout movement.

Dr. Fisher was the principal speaker and said that scouting is today the nation's need. "Social service work," said the doctor, "can never be done by professional social workers. It must be done by the army of volunteers who do this work despite the fact that they may be very busy along other lines, in a whole hearted manner, and purely because of their own inclination to do what they believe is right. We are at present living in a cynical age—an age of doubting, when one man is prone to look upon his companions with suspicion."

BOYS TAUGHT CONFIDENCE. "Over that is the Boy Scout movement, where boys are taught confidence—confidence in others and confidence in themselves as well. One of the greatest portions of the Boy Scout law is that phrase 'do a good turn daily.' When the youth of our land grows up thinking what they can do for others, it will be the kind of an attitude the nation should have. For cynicism I give the Boy Scout doctrine as the antidote."

This is a restless and undisciplined age, in the Boy Scout movement we have the boy who voluntarily seeks discipline, and in that movement, reasonable discipline is provided. It is not the withdrawal from the boy of his freedom today, but the adaptation to the city. Let's make this our slogan and work for its application and promulgation. It is also a drifting and wandering age, I say, by figures that in Cleveland they had 30,000 cases of delinquency, and four out of every five cases can be attributed to leisure hours. Again the scout movement comes in as a means toward solving this problem of the city, and making pleasure more attractive than vice, and it is only in this manner that vice can be eliminated."

MERCENARY AGE. "We are living also in a mercenary age—an age when one man usually says to another, 'What's in it?' The Boy Scout movement is also an antidote for this. Their doctrine of doing something, not for nothing, but only for the joy of doing it, can serve as an example to everyone."

"We must continue our boys in the faith of their fathers, no matter what this faith may be." Dr. Fisher made a plea for all men to stand behind the scout movement and to see that it is the greatest successful, declaring that this movement is the salvation of the nation. McDonald spoke on Boy Scout camps, and declared that yearly the boys contribute \$1,000,000 of their own money for the privilege of going to camp, because they believe in it. He said that this money does not include supplies and camp equipment, and was the greatest proof of the usefulness of these outings. He advocated procuring more camps and more trails.

TO PROBE FAR EAST. HONOLULU, T. H., Oct. 25.—Dean Walter Williams, president of the World Press Congress, has appointed Frank P. Glass of Birmingham, chairman of a special committee of the congress to investigate conditions of journalism in Korea and China, pursuant to resolutions adopted by the congress last week. Glass will leave for the Far East November 1.

Co-Lo
Restores Original Color to
Gray Hair

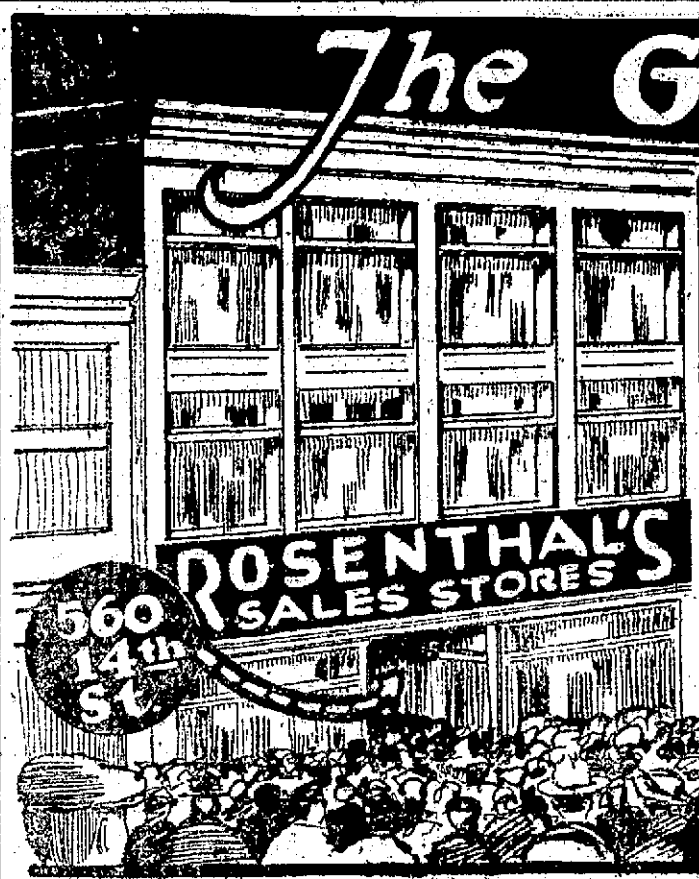

Co-Lo restores the natural color, life and luster to gray and faded hair in a manner nature approves—a scientific process perfected by Prof. John H. Austin of Chicago, over 40 years a hair and scalp specialist.

Secrets of Co-Lo Success. Co-Lo is a wonderful liquid. Clear, odorless, greenless. Without lead or sulphur. Without sediment. Will not wash or rub off. Will not injure hair or scalp. Posing in the simple apply. Cannot be detected like ordinary hair tints and dyes. Will not cause the hair to split or break off. Co-Lo Hair Restorer for every natural shade of hair—A, for black and dark shades of brown; B, for jet black hair; AB, for medium brown shades; AB, for light brown and ashy shades.

Church Society to Hold Annual Bazaar
The Ladies' Aid Society of the City Lutheran church, 823 Athens avenue, will hold its annual bazaar, Jenny Lind hall, 2229 Telegraph avenue, Oakland, Thursday and Friday, October 27 and 28. Refreshments will be served both afternoon and evening, and each evening at 8 o'clock a program will be rendered. Anyone wishing information, or having articles to donate may get in touch with Mrs. John Hagen, Mrs. O. T. Brandrud, or E. M. Nelson.

Which?
\$50 for Painting---
or
\$500 for Repairing?
---a 1000% Investment!

That's the way to look at painting—as an investment, not an expense. Look around you at the houses going to rack and ruin. What is doing it? The weather. There is only one defense against weather and that is PAINT. But paint, like ether, is of many kinds. Beware of the fair-weather paint. It does not protect, only deceives. Buy a paint that has proven its staying power.

V.P. (Sherwin-Williams House Paint Prepared) has a fifty-year record. Its ingredients are what experience has proved to be most efficient in protecting property. It puts an armor between your buildings and the elements and so adds beauty and cleanliness.

STATE RECEIVES PRESENT OF TWO REDWOOD GROVES

The presentation to the state of California of two large groves of redwood trees, located on the south fork of the Eel river, in Humboldt county, by the Save the Redwoods League, was announced today by Joseph D. Grant, vice-president of the organization.

"Boling Memorial grove and the 40 acres adjoining it are now the property of the people of the state of California," Grant said today. "In dedicating these two groves at the junction of Elk creek and the south fork of the Eel river to the state, the Redwoods League is carrying out the policy which it outlined in 1918.

"The two groves comprise some 130 acres in one of the beauty spots of Humboldt county. They are situated at the junction of Elk creek and the south fork of the Eel river, about 45 miles south of Eureka. Traversed by the new State highway, they will be visited by thousands of travelers from all over the world."

SHIP CAPTAIN DIES.
NEW YORK, Oct. 25.—Captain A. E. Archibald, veteran of 30 years' service on Clyde line ships flying to the West Indies, dropped dead yesterday just as he was reaching for the signal cord to put out the gang plank of the Huron, after docking her in Brooklyn. He was born at Gastport, Me., 61 years ago.

MEXICAN PEOPLE DECLARED EAGER FOR U.S. GOOD WILL

Local Legion Men Are Told of Progress of Nation in Recovering From Revolt.

The people of Mexico are eager to establish more friendly relations with the United States by which trade conditions may be brought to a point where the two countries may serve one another to advantage, according to Huberto M. Sein, student at the University of California, who has just returned from a trip through Mexico and who spoke yesterday before the members of Oakland Post No. 5 of the American Legion at a luncheon at the Iroquois Cafe.

Sein, upon his departure from this city four months ago, carried a message of greeting from the local post to the post of the American Legion in Mexico City. Yesterday he returned the greeting and told the local legion men of the ambitions of the legion members in Mexico City, which is to create a better understanding between this country and Mexico.

Sein spoke in every large city in Mexico, before high schools, various organizations and universities, and in many cases before the entire population of the smaller cities. He told of the trip into Mexico from the border, of the wrecked trains, relics of the war, which are now in many of the cities and without lights as a result of the insurrection, the power plants having been damaged to such an extent that they are not yet repaired. Many of the cities without funds to repair the plants.

American friendship and American capital are the most essential needs of Mexico at present, Sein declared.

"Mexico must and will be optimistic. It is the only hope of the nation. The student class of the country will either make or spoil Mexico."

On three occasions Sein received invitations from governors of the states to speak before the populace of the capital. The people showed a marked receptiveness and eagerness to listen to the message he brought them from America.

Sein urged the legion to work for a better understanding of the Mexican people and to bring about a better understanding of America. He also declared that it should be the policy of all the western hemisphere to bring about an understanding which would make it a warless hemisphere.

CIRCUS MAN DEAD.
KANSAS CITY, Mo., Oct. 25.—Frank Lemen, 74 years old, believed one of the oldest circus men in the country and who was credited with having taken the first circus to Australia, died here Sunday night.

COURNEEN CALCULATING SCHOOL
OAKLAND'S ONLY SCHOOL DEVOTED ENTIRELY TO CALCULATING MACHINES
Comprehensive Taught in 6 Weeks
DAY AND NIGHT CLASSES
290 BACON BLDG.

IN THE PUBLIC EYE

1—Lady Geddes, wife of Sir Auckland Geddes, the ambassador from Great Britain to the United States, has just returned from their summer home, and will not doubt start a season of extensive entertainment.

2—Baroness de Cartier de Marchigny, wife of the ambassador from Belgium to the United States, who with the entrance of Belgium's delegates to the conference to discuss limitation of armaments, will be a hostess to many diplomats during the coming month.

3—Photograph of Major Thomas L. Clear, new treasurer of the United States shipping board emergency fleet corporation, who is each with a large figure in the state of Chas. G. Dawes' reductions in the budget.

4—"A Billion Dollar Sale," the largest ever held in the world, will be begun by Lieutenant Colonel E. S. Hartshorn, director of sales of the war department, next month. The sale will include surplus material of every kind which has been held in reserve until it was determined how large the army would be.

NEW AUDITORIUM TO BE DEDICATED

The Prescott school auditorium, which will be used as a community center in West Oakland, will be dedicated tomorrow afternoon, the 1450 students participating in the exercises. An alumni recently formed among former graduates of the school, will have a part in the program. Appreciation of music and literature will be fostered in the new center. A motion picture machine has been installed to assist in visual education and for amusement. Recreation will be featured.

The parent-teacher organization and the Prescott alumni will offer a joint entertainment on Friday night.

The new auditorium has a seating capacity of 700. It is equipped with stage. Prescott school has grown from 800 pupils in 1912 to 1450 students this semester. Fifty-four teachers are in the local faculty.

Mrs. A.W. Swent, Club Leader, Succumbs

Mrs. Amy Watterman Swent, prominent in club and fraternal circles of the Eastbay cities, died at her home in East Oakland yesterday following a brief illness. Funeral services will not be arranged until word is received from her son, Fay Watterman Swent, prominent mining man in Mexico. Besides her son, Mrs. Swent is survived by a sister, Mrs. J. J. Racine, with whom she made her home.

A member of Oakland Center, California Civic League of Women Voters, Mrs. Swent has taken an active interest in public affairs of the city for many years. She was a leader in relief work during the war and during the fight against the higher cost of living became a charter member and officer in the California Federation of Housewives' Leagues. Mrs. Swent was a member of Unity Chapter, Order of the Eastern Star.

Mrs. Swent was the daughter of the late James A. Watterman, pioneer citizen of Fresno.

Relief Worker Calls Silesia Powder Mine

Upper Silesia is the "powder mine of Europe," according to Howard Brinton, speaking before Mills College student body yesterday. Brinton recently returned from Silesia, where he was in charge of relief stations maintained by the National Society of Friends. The small territory furnishes apparently unsolvable problems to the nations surrounding it and to America as well, according to the relief worker. It reveals the war mind of Europe, he asserts.

Throughout all Europe, whose countries are not seeing that advantages and prosperity were closely allied with the advantages and prosperity of another, was reviewed by the speaker.

"The theory of an eye for an eye and a tooth for a tooth has failed," Brinton concluded. "It is time for a new generation to try a new experiment." He called attention to the search which the youth of Europe and America alike is making for a new order, where idealism and the spirit of sacrifice will predominate.

Dunlop, Inventor of Pneumatic Tire, Dead

DUBLIN, Oct. 25 (By the Associated Press).—John Boyd Dunlop, 81, known as the inventor of the pneumatic tire, died here yesterday.

CHURCH MERGER PLANNED.
DETROIT, Oct. 25.—A definite plan for uniting the Methodist Episcopal Church, North and South, is to be made here immediately preceding the world conference of the Methodist Episcopal church, which opens November 14, according to an announcement made today by Bishop Theodore S. Henderson, head of the church in Michigan.

ROTARY IDEA IS TOLD TO WOMEN BY CLUB LEADER

Soroptimists to Listen to the Charter Talks at Next Meeting.

Success of Rotary is due to the fact that "men are most comely" at noon when assembled about a large table," according to C. E. Schmidt, president of the Oakland Rotary club, addressing the Soroptimist club yesterday. "The Rotary idea extended to Spanish and Latin America is the large factor which will remove the suspicion of those countries against the United States," said the speaker.

The entire luncheon club movement was commented on by the Rotarian.

"These clubs would not survive were they held in the afternoon or evening," he asserted.

Schmidt extended greetings to the Soroptimist as the "sister" club to Rotary. The organization is made up of eighty women engaged in different lines of business and profession in the Eastbay cities.

"I believe Rotary clubs and similar organizations will bring about the era of service and co-operation," Schmidt said. "Devoted to the cause of a common humanity, discharge of duty toward society, elevating ideals for life and conduct, and efficiency and service in vocation, the members must become better men and citizens."

Oakland Rotary club leads the world in attendance, the local president declared. A membership of between 220 and 230 represents as many lines of vocation, he reviewed. Approximately \$2000 each year is appropriated to philanthropic work from fines received from members.

The charter to be voted upon November 15 by citizens of Alameda county will provide the program for the Soroptimist club luncheon next Monday at Hotel Oakland. Prominent and opponents of the consolidation scheme under its provisions will speak. Miss Violet Richardson is president of the club.

Woman to Lecture At Mills Benefit

Mrs. Grace Roberts Moore will deliver a lecture on "Babylon" at the home of Mrs. Charles J. Youngberg, 251 Perry street, Oakland, Thursday afternoon, beginning at 7 o'clock. The lecture will be given for the benefit of the Mills college endowment fund. Tea will be served at the conclusion of the lecture.

The Mills club of Alameda county has planned a series of teas and bazaars for the purpose of adding to the Mills endowment fund.

NUXATED
Over 4,000,000 People Annually Are Suffering From Iron Deficiency. When your blood is starving for iron, no ordinary tonic or stimulant can put you right. Starving blood must have iron to make a strong person. Nuxated Iron is the only iron which people usually take. It is iron from nature's own source, the action of strong acid on small pieces of iron and is therefore entirely different from organic iron. Organic iron like the iron in your blood and like the iron may be had from your drug-gist under the name of Nuxated Iron. Beware of substitutes.

How to Make Pine Cough Syrup at Home
See no chemist for prompt results. Takes but a moment to prepare, and saves you about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that it contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine cough syrups are combinations of pine and syrups. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pine in a pint bottle and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way you get a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—infamed membranes—and this Pine and Syrup combination will stop it usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pine is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pine" with direct tests, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

LIMBERS UP YOUR SORE STIFF JOINTS
WEATHER exposure and hard work bring pains and aches in muscles and joints. Have a bottle of Sloan's Liniment handy and apply freely. Penetrates without rubbing. You will find at once a comforting sense of warmth which will be followed by a relief from the soreness and stiffness of aching joints. Also relieves rheumatism, sciatica, neuralgia, sprains and strains. For forty years pain's enemy. Ask your neighbor. At all drug stores—35c, 70c, \$1.40.

Sloan's Liniment
Pain's enemy

328 Honor Students At Fremont High

Of 1418 students at Fremont high school, 553 boys and 855 girls, the Fremont honor roll of students of the first grade of scholarship now numbers 328, according to a report rendered the school department by Principal H. D. Brasefield.

The honor roll includes not just first grade students, but the first grade students who stand highest in promptness and good "school citizenship."

In the freshman year, it is found, the honor roll of the class generally comes to about 16.8 per cent and increases with the upper classes to the seniors, who registered 42.6 per cent last year. This is taken to mean that school "morale" increases as the student goes through the various classes.

Theater Musicians In L. A. Go On Strike

LOS ANGELES, Oct. 25.—Failure of the Los Angeles Theaters' Association and some 250 members of the local union of the Musicians' Mutual Protective Association, employed in downtown theaters, to agree on wages and working conditions, caused the musicians to strike and managers of the theaters affected by the strike announced yesterday they would stand on their proposal to conduct an open shop.

The managers favored a ten per cent wage cut to which the musicians objected, while the latter are said to have demanded shorter hours with special provisions for overtime.

A French company plans to build fourteen new wireless stations in Ecuador.

Prison Term Given to Confessed Tire Thief

FAIRFIELD, Oct. 25.—Patrick Johnston has been sentenced to San Quentin for the indeterminate sentence of from one to fourteen years upon pleading guilty to a charge of first degree burglary, and Neil McAuliffe and Herbert Hilton have been granted probation upon the same charge upon the furnishing of a bond each in the sum of \$500.

The three men were arrested on the charge of stealing approximately \$1000 worth of tires from the Kerner garage in Rio Vista. They asked for probation.

The probation officer reported unfavorably against Johnston, but favorably toward the other two men. McAuliffe was formerly foreman for the Great Western Power Company.

Healthy Mother Merry Children Happy Home

TO maintain a happy home the housewife must keep in good health. Her duties are many and various, and it seems as if every other member of the family depended very much on her.

"Where is my hat?" cries the boy.

"What did you do with my coat?" asks the daughter.

"I can't find any handkerchiefs," yells the husband.

The housewife is usually the advisor and general manager of the family.

Lydia E. Pinkham's Vegetable Compound helps women to maintain a happy home by keeping them in good health.

Bloomington, Ill.—"I have taken six bottles of Lydia E. Pinkham's Vegetable Compound and it has done me a wonderful sight of good. I was never very strong and female trouble kept me weak so that I had no interest for my housework. I had such a back ache I could not cook a meal or clean up a room without raging with pain. I would rub my back with alcohol and it would ease for a few hours, but after I had taken three bottles of Vegetable Compound my aches began to gradually leave me. Now I am as strong and healthy as any woman and I give my thanks to Lydia E. Pinkham's Vegetable Compound for my health."—Mrs. J. A. McQUITY, 610 W. Walnut St., Bloomington, Ill.

Dante, So. Dakota.—"I would have pains and cramps every month until I could hardly stand it and could not do my work at all at that time and often had to go to bed. I went to a physician, but he did not do me much good and said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in the newspaper and thought I would give it a trial. Now I feel lots better and don't have to give up and go to bed, and can do all my work. You may use these facts as a testimony and I will answer with pleasure all letters I receive, and you may be sure I will praise your wonderful medicine."—Mrs. ARTHUR J. KADE, Box 71, Dante, South Dakota.

Thousands of women owe their health to

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

Wings of the morning!
Fine coffee like Schilling's costs just about the same per cup as ordinary coffee—there are so many more cups to the pound.

So you might just as well enjoy good coffee—with its delightful fragrance, rich smooth taste, and the set-up it gives you for your day's work.

Your money back if you don't like Schilling Coffee.

CALIFORNIAN HONORED.
PROVIDENCE, R. I., Oct. 25.—At yesterday's session of the board of trustees of the woman's home missionary society, Mrs. May Leonard

Woodruff of Allendale, N. J., was re-elected corresponding secretary. Mrs. George O. Robinson, Pasadena, Cal., was named one of the vice-presidents.

SKAGGS

Offers You More!

It will not be many weeks before you are convinced that Skaggs stores offer you more than do other food stores of Oakland, and it will be a fact, too.

We have been unable to find a down-town food store that offers quality groceries, fruits, vegetables and fresh meats under the same management—at conservative low prices throughout, every day in the week—that renders quick, accurate service to a busy public. Skaggs stores and markets do this. After a few trial purchases from us you will readily decide that Skaggs stores and markets are the best places in which to trade.

You will find no baits here. No hook or crook methods. No offers with a string to them, but a policy of daily building of popularity for our stores through affording our patrons greater savings than they can find elsewhere.

Our first Oakland store and market opens next Saturday, the 29th, at 478 9th St. Come and see our store, and the way we serve our patrons, whether you wish to buy or not.

Watch Your Gums—Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhea poisons which seep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhea, visit your dentist often for teeth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today.

Brush Your Teeth With Forhan's—How to Use It!

Use it twice daily, once in and once out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush—gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

GIRL'S UNCLE HAS MAN JAILED ON BIGAMY CHARGE

Wife No. 1 in Oregon, Wife
No. 2 in Martinez, Ac-
cuses Relative.

MARTINEZ, Oct. 25.—Jesse Stanford Morris, whom the authorities say has an alias of Edwin A. Morris, is in the county jail today facing a charge of bigamy preferred against him by J. E. Clearwater of San Francisco, uncle of the girl said to be wife No. 2. Morris was taken into custody at a Hindoo camp near Wilkes by Deputy Sheriff Duke Joslin.

According to the authorities, wife No. 1 and two children are in Astoria, Ore., the home of Morris' parents. Morris, aged 27, and Jeanette Best, aged 26, both giving their address as San Francisco, secured a marriage license here September 13 and were married by Rev. N. F. Sanderson. Someone who is said to have had knowledge of Morris' alleged first marriage told Clearwater, the girl's uncle, the authorities say, and he swore out a warrant for Morris' arrest before Judge E. L. Glass. Time for Morris' hearing has not been set.

Boy Is Tarred and Feathered; May Die

ELGIN, Ill., Oct. 25.—Preston Johnson, 16 years old, colored, is in a serious condition as the result of a "tar and feather party" Sunday night. Physicians attending Johnson stated that burns from hot tar used by a gang of thirty local men, together with the shock of the incident, have made him critically ill. The report that Johnson had attacked a 43-year-old white girl several weeks ago is said to have given the mob its incentive for staging the "tar party."

Explorers have found the largest blackberries in the world growing at an altitude of 10,000 feet in the Andes mountains.

WOMEN GAIN IN N. Y. SCIENTIFIC REDUCTION TEST

NEW YORK, Oct. 25.—Sorrow last night invaded the ranks of half a hundred New York fat women attempting to reduce through scientific training. Two had grown fatter.

Forty-eight of the reducing class visited the scales and rejoiced—they showed an average loss in seven days of six pounds, five ounces. But Ada Parker screamed—she was fatter by two and a half pounds and now weighs 196. Lillie Lee remained. Entered at 177, she now weighs 179.

GRAY TO EXPLAIN CITY ZONE PLANS

The legal aspects of restrictive zoning in residence districts will be explained by City Attorney Leon Gray before the Oakland Real Estate Board when the organization holds its regular house meeting here tomorrow. His address will be followed by open discussion. Mayor John L. Davis will be the guest of the board and many city officials and property owners are to attend the affair.

In outlining the purpose of the luncheon a statement issued by the house says:

Members of the Oakland Real Estate Board are thoroughly in accord with the policy adopted by the City Council, with respect to restrictive zoning, which is that all steps of this kind should be made in conformity with the general development survey of the entire community made by competent persons. It is in recognition of this policy that the board has adopted the following resolutions that such a survey is now being made through the agency of the city planning commission.

A zone prohibiting the erection of any new buildings other than single family residences is now being adopted affecting the district east of Lake Shore avenue from Mainland boulevard to Walla Vista avenue and extending northerly to the Piedmont line. Another zone of this character soon to be demanded will include territory between Lake Shore avenue and Grand avenue from Cottage avenue north to the Piedmont line. Plans are being made by residents of other districts to demand similar protection.

"The purpose of restrictive zoning is to protect established residential districts against the encroachment of commercial activities and against apartment houses and flats. Investigations made by the real estate board show that the restriction of this kind in other cities has proved beneficial, but in all such cases the proper relationship between zones has been maintained and logical development has been safeguarded through the agency of the general development survey such as the Oakland city administration has instituted."

Burglars Get Busy In Pittsburg Stores

PITTSBURG, Oct. 25.—Three burglaries are reported here since Saturday night. The 5 and 10-cent store conducted by Mrs. A. Nelson on Lower Black Diamond street, was entered through a small rear window and a number of toys taken, in addition to a small amount of coin from the cash register.

The California grocery on Railroad street was visited by burglars Sunday afternoon. Two or three dollars were secured from the cash register. Two screen doors were torn from rear entrances to the new Linscheid building at Cumberland and Fourth streets. One of the doors opened into the grocery store owned by Linscheid and the other led into The Vogue, an art store owned by Mrs. G. A. Kramer and Mrs. Hazel Lane. A rear window was also found open in the rear of the art store. No articles were missing at the Vogue. It is suspected the grocery store was the chief object of attack.

Demented Boy Kills His Two Brothers

WARSAN, Ind., Oct. 25.—Harry Long, 17, son of Elam Long, a farmer living nine miles west of here, yesterday killed his two brothers, Kenneth, 6, and Russell, 3. The youth is believed to have become demented.

The boys were playing at the Long farm, according to witnesses, when Harry seized a length of iron gas pipe and struck Kenneth, breaking his neck. Harry then rushed to his younger brother and struck him on the head with the pipe, fracturing his skull. The child died an hour later.

The father hearing the screams rushed out, but was unable to stop the assault. With the assistance of neighbors, he overpowered the elder son and held him until the arrival of the sheriff.

Hosiery Workers Accept Open Shop

PHILADELPHIA, Oct. 24.—The strike of the full-fashioned hosiery workers in this city, which had been in effect ten months, ended through the efforts of the relations committee of the Philadelphia Chamber of Commerce. It was announced at a meeting of the committee. The strike, it was said, agreed to return to work on the open shop basis.

Differences regarding wages and working conditions were reported to have been settled in a manner mutually satisfactory. Virtually all the mills either have been idle or working with reduced forces.

Church Women Will Put On Big Bazaar

PITTSBURG, Oct. 25.—In preparing for their annual bazaar to be held November 2 and 3, the members of the Ladies' Auxiliary of the Congregational church are holding enthusiastic meetings at which the subject of art as pertaining to needlework, crocheting, embroidery and other fancy stitching is an absorbing topic. The bazaar will open on Wednesday evening with a big chicken dinner, at \$1 the plate for adults and 50 cents for children.

300 HOMES BURN.
ATHENS, Oct. 25.—Three hundred houses and stores in Afion Karahissar, in Asia Minor, were destroyed by fire late last week, says an official statement. It is indicated that the fire was of accidental origin.

OIL PRODUCERS MOVE TO EJECT MEN ON STRIKE

57 Suits, Added to 47 Filed
Last Week, Will Oust
All Employees.

BAKERSFIELD, Oct. 25.—Fifty-seven suits to eject striking oil workers from houses occupied by them on property of the Associated Oil Company and the Sterling Oil Company were filed yesterday in the Superior Court of Kern county here. These, with the forty-seven suits filed last week, call for the removal of practically all strikers now living on the properties of these companies. The complaints all have attached copies of agreements with the men providing that they will surrender possession on demand and without the usual statutory notice.

Each of the individual oil companies today served formal notice on the Board of Supervisors that Kern county would be held liable for damages to their property which may result from strike violence. "The operators," declared that threats of violence had been made and that with due notice served in advance it was the duty of the

STATE THEATER SUGGESTED BY HENRY MILLER

A state theater, to be conducted as a department of the University of California, and a capable company of artists which would specialize in presenting worthwhile plays that would meet the intellectual and entertainment demand of the public and serve as an educational medium for students. This is the suggestion attributed to Henry Miller, actor, artist and manager, in advice received today from Los Angeles, where Miller is appearing with his company on tour.

According to Miller, his idea is not visionary and is based on constructive and not money-making motives, although he pointed out that the venture, aside from other considerations, would be self-supporting and "good business." "It is something I have thought of for twenty-five years," he said.

Divorce Decree Is Granted Mrs. Duke

PHILADELPHIA, Oct. 25.—A final decree of divorce was handed down to Mrs. Cordelia Biddle Duke, formerly Cordelia Biddle, daughter of Major and Mrs. Anthony J. Draxel Biddle, against Angus E. Duke, in common pleas court. Mrs. Duke charged cruelty in the suit, which was not contested.

County sheriff's office to furnish adequate protection.

Yeast Vitamine Greatest of All Beauty Secrets—

Banishes Skin Eruptions. Puts On Firm Flesh,
Strengthens The Nerves and Increases Energy.

Concentrated Tablets Easy and Economical to Take. Results Quick.

LUSTROUS HAIR

'BRIGHT' EYES

HEALTHY GLOW OF PERFECT DIGESTION

FIRM FLESH UNDER SKIN

NO FLABBINESS

NO HOLLOW

If you want to quickly clear your skin and complexion, put some firm, healthy flesh on your bones, increase your nerve force and power, and look and feel 100 per cent. better, simply try taking two of Mastin's tiny yeast VITAMON Tablets with each meal and water. Mastin's VITAMON contains highly concentrated yeast vitamins, as well as the other two still more important vitamins (Fat Soluble A and Water Soluble C) and is now being used by thousands. It positively will not upset the stomach or cause gas, but, on the contrary, is a great aid to digestion, to overcome constipation and as a general conditioner of the whole system. Pimples, boils and skin eruptions seem to vanish like magic under its purifying influence, the complexion becomes fresh and beautiful, the cheeks rosy instead of pale, the lips red instead of colorless, the eyes bright instead of dull. So rapid and sure are the results that success is absolutely guaranteed or the trial costs you nothing. Be sure to remember the name—Mastin's VITAMON—the original and genuine yeast-vitamine tablets. There is nothing else like it, so do not accept imitations or substitutes. You can get Mastin's VITAMON Tablets at all OWL DRUG STORES and other good druggists.

BRONCHIAL+LUNG RELIEF

SYRUP BAL-SA-ME-A first attracted the serious attention of medical men during the Influenza Epidemics of 1918 and 1919. Remarkable recoveries were effected wherever BAL-SA-ME-A was prescribed. In cases of pneumonia the ravishing effects of this dread disease were quickly arrested and within a very short time the patients fully recovered.

Clinical work was started immediately with Pulmonary Tuberculosis patients and it was observed that BAL-SA-ME-A arrested cases in the early stages in an astonishingly short time.

Hundreds of patients have since been successfully treated for Pulmonary Tuberculosis and many physicians are enthusiastically prescribing it today, not alone in their treatment of Pulmonary Tuberculosis and Epidemic Influenza, but also in cases of Pneumonia, Bronchial Asthma, Bronchitis, Whooping Cough and Croup. SYRUP BAL-SA-ME-A gives very satisfactory results for temporary or chronic bronchial and lung troubles. The relief is almost immediate in Coughs and Colds. SYRUP BAL-SA-ME-A contains no harmful drugs or ingredients. It is Nature's own remedy—made from the root of *Leptocarpus*, found only in our own Sierra Nevada Mountains.

You will be astonished and delighted with the quick and beneficial results to be obtained from SYRUP BAL-SA-ME-A.

Money-back slip in every trial package.

PARKING PERIOD HELD TO 1 HOUR BY NEW MEASURE

San Jose Council Passes Auto Ordinance After Long Battle of Business Men.

SAN JOSE, Oct. 25.—No vehicles shall in the future remain parked in the business district of the city for a longer period than one hour, according to an ordinance passed last night at a meeting of the city council. The ordinance was passed after a long and heated discussion, and after the city manager had presented a report on the subject. The ordinance is a result of a long battle between the city council and the business men of the city. The business men had been complaining for some time that the ordinance was too strict, and that it was causing them to lose business. The city council, on the other hand, had been insisting that the ordinance was necessary to keep the streets clear and to prevent the city from becoming a parking lot. The ordinance was finally passed by a vote of 10 to 5. It provides that no vehicle shall remain parked in the business district of the city for a longer period than one hour. The ordinance also provides that the city manager may, in his discretion, extend the time for parking in certain cases. The ordinance is expected to be in effect by the first of November.

In creating a one-hour parking limit, at the behest of merchants, all former ordinances regulating traffic are repealed or included within the new ordinance. Stalls will be marked on every business street for the accommodation of a certain number of vehicles at the stipulated distance apart. Persons who have been accustomed to leaving their cars throughout the day before a bank or store or any building within the business area will find the new regulation, be forced to either drive into a garage or park on the outskirts of the district. Complaint was made by the merchants that customers found it impossible to approach a store, due to the number of cars remaining for hours at a time, and consequently went elsewhere to make their purchases.

Business Men Buy

Modesto Property

MODESTO, Oct. 25.—The most important transfer of business property in Modesto in several months has been announced by John E. Kelly and A. Thurn. They have bought 75 by 140 feet of the northeast corner of Tenth and K streets from the Bank of Italy. This is one of the best business locations in the city.

Thurn, who is proprietor of the New York store, said that they plan to erect a modern building block on the corner at a cost of approximately \$75,000.

String of Stores

Centers at Modesto

MODESTO, Oct. 25.—Modesto eventually will become the distributing point for a string of fifteen retail stores of the Modesto Western Stores, Inc., according to a statement made by Leigh A. Hume, of Fresno, secretary-treasurer of the company.

Hume said a warehouse will be erected here and that at least two of the retail stores will be placed in this city. The fifteen stores will be in Stanislaus county, adjacent territory. It was recently announced that forty or fifty of the stores will be located in Central California.

Arson Charge Trial

Is Set for Nov. 15

MARTINEZ, Oct. 25.—J. F. Emerson, former Associated Oil Company guard, will go to trial on a charge of arson before a jury in Judge R. H. Lathrop's court on November 15. That date was fixed today by Judge Lathrop when Emerson was taken into custody on the request of his attorney, Everett Taylor, who asked and secured an order associating James F. Hoy as defense counsel. Emerson is accused of having set the company's wharf afire three weeks ago. He is being held in jail.

Remove Those Skin Discolorations

Use the Popular Skin Beautifier—Beauty Bleach

Tonight cleanse the skin with warm water and Black and White Beauty Bleach. Apply lightly to the skin. Beauty Bleach is a delicately fragrant cream. Black and White Cleansing Cream is ideal for cleansing the skin, relieving chaps and other irritations. Black and White Beauty Bleach 50c. Black and White Soap 25c. Black and White Cleansing Cream 25c and 50c. can be found at good drug and department stores. Write for Free Booklet. Tell them you saw it in the Tribune. They will tell you all about Black and White Total Preparations.

Black and White Beauty Bleach

Hester District Holds Off on Annexation Plan

SAN JOSE, Oct. 25.—The Hester and College Park district, to which union with San Jose was last night proposed, refused to commit itself either one way or the other until thoroughly informed of all the various phases of the proposal.

The proposal that this district, which includes roughly all the territory from the west city limits of San Jose to the south limits of the town of Santa Clara, be annexed to San Jose, came during the course of a meeting in the auditorium of the Hester grammar school, called by the Hester Improvement Club, at which several hundred interested residents of the district were present.

Although the meeting was preliminary to another meeting to be held on Tuesday evening, November 1, when members of the city council, the city manager and city attorney will be present, it served to arouse interest in the proposal and the many who participated in the discussions indicated. Charles Crothers, president of the San Jose Realty Board, was introduced by J. H. Diner, president of the Hester Improvement Club, to open the discussions. Crothers, calling attention to the inability of city officials to present at the meeting, declared that the regular weekly meeting of the city council, proposed that since they were not present to explain taxation questions pertaining to the annexation, a committee of five be appointed to investigate this matter, and render a report at the next meeting. This suggestion was later adopted.

Emphasizing San Jose's need of citizens of the caliber residing in the district which it is proposed to annex, Crothers said: "There are many reasons why we would like to have you in San Jose, but the main reason is we like you, and need you to help us make San Jose a bigger and better city."

Answering in advance an objection which was "nevertheless" later on brought up, Crothers declared the district would not lose its identity by becoming part of San Jose, for all the residents had to do to be represented on the Board of Education and the city council was to secure men willing to do so.

Following Crothers' address, the meeting was declared open for general discussion, which continued for an hour or more, both pro and con. Opponents of annexation expressed the fear that the school would fare as well or more, both pro and con. The district might have to pay taxes for improvements they would not get. An advocate of annexation declared it was to the interests of the district to cast its lot with San Jose, upon which the district depended for all its land, and urged, if there was anything the matter with San Jose, that Hester residents become a part of the city, find out what was wrong, and right it.

A straw vote on the question, taken just before adjournment, showed sentiment to be evenly divided. Discussion of the project will be resumed at the meeting called for Tuesday, November 1.

With the exception, disclosed, that gravel is coming in rapidly and that large amounts of cement are on hand, five carloads of cement are being received daily. Fifteen cars are now en route from Santa Cruz to the dam.

Heavy pouring of concrete will be started in a few days.

The project is being supervised by D. A. Duncanson, superintendent of construction, apparently has entirely recovered from the acute attack of neuritis which threatened a few weeks ago to cause his removal to San Francisco for treatment. Duncanson's rugged vitality was able to throw off the disease soon after the start of pouring the bottom of the dam for pouring concrete was over.

Two Oakland motorists were headed south Sunday by Deputy Sheriff E. J. Young to appear in Judge Terry's court at Pinole November 2 to answer to charges of parking their cars on the highway. The Oakland motorists approached were E. B. Horsman, 47 Arden road, C. H. Harvey, of 1021 East Twenty-fourth street, O. R. Lee of San Lorenzo also received a card. Young declared motorists who park on the water-front highway are a menace and asserts he intends making a determined campaign against them.

Sello Columbo of Martinez is to appear before Justice of the Peace P. L. Glass to answer to charges of hunting without a license and killing a non-game bird. Columbo was arrested in Alameda valley by Game Warden Thomas Duncan of Clayton. He is said to have had a yellowhammer, a non-game bird, in his possession.

An automobile belonging to the Weaver-Wells Company of Oakland, stolen from Broadway at midnight Saturday, returned to the firm today. The car was found abandoned near Lafayette by Traffic Officer P. F. Keefe. Two caps found in the machine were taken as an indication that the car had stolen the car for a joy ride.

A score of members of the Martinez Rifle Club recently organized in Sunday constructing a range at Pacheco. A regulation army range, with butts from 100 to 600 yards, was built.

Welfare Council to Give Entertainments

SANTA CLARA, Oct. 25.—Members of the Catholic Women's Welfare Council held an interesting meeting in the sodality chapel last evening. Several new members were elected and interesting reports were read in regard to the card party held last Friday night. It was decided to hold another on November 13. The committee which are making arrangements for the food sale which will be held November 23 gave encouraging reports of the progress they are making.

Rabbit Farmer Is Held Under Charge

MARTINEZ, Oct. 25.—Ad Auerbach, owner of a rabbit farm at Omar, near Clyde, is to appear before Justice of the Peace A. W. Smith at Bay Point this afternoon to answer to charges of obtaining money under false pretenses, preferred against him by Pete Kallaris, one of three Bay Point business men to whom Auerbach is alleged to have tendered checks that would not be honored in payment for goods. One of the checks was tendered to A. W. Smith, druggist and justice, before whom Auerbach is to appear.

INDIAN WAR SCOUT DIES

PITTSBURG, Kan., Oct. 25.—Jas. C. Creilly, said to have been a friend of William F. Cody and who served as scout during the Indian wars, died at his home here yesterday. He was 77 years old.

SAN JOSE VITAL STATISTICS

SAN JOSE, Oct. 25.—The following vital statistics were recorded:

LOVED SEIDEL OLMSTEAD, 28, and Vivian Ernest, 24, both of the city and county of San Francisco.

George S. Millard, 21, and Blanche M. Kerr, 20, both of San Jose.

George W. Brown, 31, San Francisco, and Nellie V. Orsholt, 20, Stockton.

FIVE INJURED IN SMASH OF AUTO AND MILK TRUCK

Truck Driver Charged With Crossing Highway Without Giving Signal.

SAN JOSE, Oct. 25.—Mrs. Manuel Santos, 1404 Washington street, Santa Clara, is a patient at the Occomber Sanitarium suffering with a double fracture of the pelvis and bruises and lacerations of the entire body, while Ernest Nevils, 75 Island avenue, Redwood, lost a finger as the result of an auto accident on the Oakland highway near Wayne station yesterday.

Mr. Santos, his 8-year-old daughter Louise and Joe Nevils all received severe bruises and cuts.

The accident occurred when Merle Young, driver of a milk truck, attempted to drive diagonally across the highway according to Traffic Officer James J. Margaron and Deputy Sheriff E. A. Raymond, who made an investigation.

Young claims to have given the proper signal, but this Nevils denies.

Man Sick Under Bridge Found By Niles Boys

NILES, Oct. 25.—An unidentified "hobo" is in the county infirmary today in a critical condition, after he had lain two weeks in a torn and tattered blanket under the county bridge near Niles, so ill that he was unable to move.

He was found yesterday when boys saw the improvised bed he had made when he first was taken ill. Constable Frank Rose was notified and he sent for the county hospital authorities, who conveyed the man to the hospital.

The man was so near death that he was unable to tell them more than that he had been sick for two weeks and that he could not summon strength enough to call for aid.

Deputy Sheriff Leon A. Solon is as adept at shooting ducks as he is in nabbing speeders in Washington territory. Two friends said today, Solon took a day off from his maintenance of the safety of the highways and on his return he exhibited the limit of duck.

He hunted in the Newark section.

Mrs. Ed Rose was a visitor in Oakland, Monday.

Martinez Notes

MARTINEZ, Oct. 25.—The postponed football game between the teams of Concord and Martinez High schools is to be played here this afternoon. The game was postponed Saturday because of rain.

Two Oakland motorists were headed south Sunday by Deputy Sheriff E. J. Young to appear in Judge Terry's court at Pinole November 2 to answer to charges of parking their cars on the highway. The Oakland motorists approached were E. B. Horsman, 47 Arden road, C. H. Harvey, of 1021 East Twenty-fourth street, O. R. Lee of San Lorenzo also received a card. Young declared motorists who park on the water-front highway are a menace and asserts he intends making a determined campaign against them.

Sello Columbo of Martinez is to appear before Justice of the Peace P. L. Glass to answer to charges of hunting without a license and killing a non-game bird. Columbo was arrested in Alameda valley by Game Warden Thomas Duncan of Clayton. He is said to have had a yellowhammer, a non-game bird, in his possession.

An automobile belonging to the Weaver-Wells Company of Oakland, stolen from Broadway at midnight Saturday, returned to the firm today. The car was found abandoned near Lafayette by Traffic Officer P. F. Keefe. Two caps found in the machine were taken as an indication that the car had stolen the car for a joy ride.

A score of members of the Martinez Rifle Club recently organized in Sunday constructing a range at Pacheco. A regulation army range, with butts from 100 to 600 yards, was built.

Welfare Council to Give Entertainments

SANTA CLARA, Oct. 25.—Members of the Catholic Women's Welfare Council held an interesting meeting in the sodality chapel last evening. Several new members were elected and interesting reports were read in regard to the card party held last Friday night. It was decided to hold another on November 13. The committee which are making arrangements for the food sale which will be held November 23 gave encouraging reports of the progress they are making.

Rabbit Farmer Is Held Under Charge

MARTINEZ, Oct. 25.—Ad Auerbach, owner of a rabbit farm at Omar, near Clyde, is to appear before Justice of the Peace A. W. Smith at Bay Point this afternoon to answer to charges of obtaining money under false pretenses, preferred against him by Pete Kallaris, one of three Bay Point business men to whom Auerbach is alleged to have tendered checks that would not be honored in payment for goods. One of the checks was tendered to A. W. Smith, druggist and justice, before whom Auerbach is to appear.

INDIAN WAR SCOUT DIES

PITTSBURG, Kan., Oct. 25.—Jas. C. Creilly, said to have been a friend of William F. Cody and who served as scout during the Indian wars, died at his home here yesterday. He was 77 years old.

SAN JOSE VITAL STATISTICS

SAN JOSE, Oct. 25.—The following vital statistics were recorded:

LOVED SEIDEL OLMSTEAD, 28, and Vivian Ernest, 24, both of the city and county of San Francisco.

George S. Millard, 21, and Blanche M. Kerr, 20, both of San Jose.

George W. Brown, 31, San Francisco, and Nellie V. Orsholt, 20, Stockton.

THE WISE ONES

By Donahey

Notes on San Jose Social Events

SAN JOSE, Oct. 25.—The bridge luncheon given by Mrs. William A. Coulter and Mrs. William H. Coffin at the San Jose Country Club for Mrs. Emma Leach of Eureka, proved to be one of the biggest social affairs of the week. A large number of well known society women of the city attended the affair.

Mr. and Mrs. Albert Haas entertained a number of out-of-town guests at the charming home in Evergreen yesterday.

Following an extended trip through the east Frank Martin has returned to his home in San Jose.

Mrs. O. A. Harlan has entertained several house guests during the last week.

The Shakespeare Club met at the residence of Mrs. Allie Garrigues, 1011 Lewis street, Santa Clara, this afternoon. The Rev. E. A. King reviewed the book "The Next War," by Will Irwin.

The Ladies' Auxiliary, N. A. L. C., enjoyed a picnic luncheon at the home of Mrs. Clinton Smith, 1911 the Alameda, this afternoon.

Mrs. Abbie A. Powis of San Francisco, past department president, will be the guest of honor at the meeting of Anna Eliza Carroll Circle, No. 1, at Hubbard hall, this evening.

Oakland Men "Pinch" Reckless Auto Man

MODESTO, Oct. 25.—Four Oakland duck hunters rudely interrupted in their plans for a duck hunt when W. J. Jones of Modesto drove his automobile into their car. The Oakland men are J. Rhue, C. Gonzalez, Ralph Centoni and F. E. Simmons.

The four men were going south when Jones' car struck them. They took charge of him and brought him into Modesto, where he was placed under arrest on a charge of driving an automobile while intoxicated.

The car belonging to the Oakland men was badly wrecked. The accident occurred on the state highway three miles north of Salida, in San Joaquin county.

Bicycle Thief Starts Three Months' Term

SAN JOSE, Oct. 25.—Z. Sullivan, arrested several days ago on a charge of stealing a bicycle, has been sentenced to pay a fine of \$30 or serve ninety days in jail. Not having the money for the fine he today began serving the sentence.

Sullivan is well known to the police here, and is believed by them to be responsible for the loss of many wheels during the last few months. He is also said to have been a drug peddler and to have supplied many users in San Jose.

O. D. Hamlin Enters Donahue-Hines Firm

O. D. Hamlin, formerly of the district attorney's office, has joined the law firm of Donahue and Hynes, it was announced today. The law firm, which is now made up of William H. Donahue, formerly a superior court judge; W. H. L. Hynes, formerly district attorney; and Hamlin, will be known as Donahue, Hynes and Hamlin. Hamlin is the son of Dr. O. D. Hamlin.

Arrest Is Near In S. J. Bombing Case, Says Chief

SAN JOSE, Oct. 25.—Chief of Police Black is confident the mystery surrounding the recent bomb outrage at Genova Hotel, 73 North Market street, some days ago, will shortly be solved.

Yesterday and last night the chief had an explosive expert examine the building, and this man told the officers that the explosive was of high power and was probably dynamite.

He also stated that the bomb was probably made by a novice who did not know the power or action of the explosive used, or he would not have placed the bomb where he did to get results other than to wreck the building.

Chief Black has refused to state what clues he has secured, but did state that the mystery has narrowed down so much that an arrest is expected shortly.

There were twenty-eight traffic violations before the judge during the morning, and all were fined or forfeited their deposits.

Taxi Man Misses Term in Jail by Narrow Margin

SAN JOSE, Oct. 25.—W. E. Ackerman, taxi driver, missed being committed to serve a thirty-day sentence for speeding by a narrow margin when he was arraigned before Police Judge Dougherty.

Traffic officers told the judge of Ackerman driving at a speed of forty miles an hour over the streets of the city.

"You have been before me several times in the past," the judge asked.

"Yes," was the reply.

"Well, I'll just sentence you to serve thirty days," answered the judge, and then turning to the officer continued: "If you order this commitment held up for a period of six months, and if you are again arrested during that time you will be compelled to serve the full term."

There were twenty-eight traffic violations before the judge during the morning, and all were fined or forfeited their deposits.

Besides there is greater beauty of tone, greater utility and a much longer life of real service.

The small grands that we sell have by their superior qualities proven their worth and their durability. They will add every desirable element at moderate cost.

DINNER AT \$100 A PLATE BACKED BY BUSINESS MEN

Heartily Endorsement Is Given Good Cheer Plan to Raise Funds for Year.

SAN JOSE, Oct. 25.—Prominent business men of San Jose have come forward and now stand solidly back of the \$100-a-plate dinner planned by the Good Cheer Club for the purpose of raising the \$12,000 needed to carry on its work during the coming year.

The dinner will be held at the Vendome Hotel on Thanksgiving eve, November 23.

Many employers of the city have notified the committee in charge that they will send one or more representatives to the feast, and that they will do all in their power to make the affair a success.

E. N. Richmond, a director of the Good Cheer Club, said today:

"I consider the \$100-a-plate dinner an exceptionally good idea, and I believe the plan is both feasible and practicable. As I understand it the idea is not to induce individuals to contribute \$100 so much as to have organizations and institutions vouch for that amount. This phase of the project gives it unlimited scope from the contributor's standpoint and is highly commendable."

V. J. La Motte, vice-president of the Bank of San Jose, and president of the Chamber of Commerce, also heartily endorsed the plan.

"I consider the idea an excellent one," he said, "and I will be glad to aid the more all I can."

The members of the committee in charge announced an important decision today, when they stated that it will not be necessary for those who wish to contribute to give the entire \$100 at once, but if they sign one of the customary vouchers that will be sufficient.

Modesto High Has Trophy Won at Fair

MODESTO, Oct. 25.—The handsome trophy cup won by the Modesto High School at the state fair now is on exhibit at the high school assembly room.

It was won in competition with all the larger high schools of the state, and was awarded for the finest general high school exhibit at the fair. The cup was offered by the State Agricultural Society.

In the exhibit were samples of domestic science work, household arts, samples of furniture made by the manual training department, mechanical and free-hand drawing, etc. The competition was open to all high schools having more than twelve teachers.

Dr. Wheeler to Head Commerce Boosters

BERKELEY, Oct. 25.—Upon the unanimous invitation of the one hundred or more business men last night President Emeritus Benjamin Dr. Wheeler of the state university, accepted the chairmanship of the executive committee in the Chamber of Commerce reorganization campaign.

Dr. Wheeler was authorized to appoint a group of men to act with him on the committee.

violators before the judge during the morning, and all were fined or forfeited their deposits.

TUESDAY, OCTOBER 25, 1921

A PROPOSAL TO SUBVERT SCHOOLS
TO POLITICAL CONTROL

For the second time since his election to office
Mr. Will C. Wood, State Superintendent of
Public Instruction, has interjected himself into a
local political contest. The first time was when
he publicly espoused the cause of one of the
candidates for city commissioner of Oakland, and
thus made the defeat of the candidate doubly
certain; now he has given his favorable word to a
clique of political manipulators who are ad-
vocating a new charter scheme with the design
to divide Alameda County into at least three
counties.

Mr. Wood writes to the director-in-chief of the
county division plot that the provisions of the
proposed charter relative to schools are generally
sound and may be endorsed. Let some sections
of the new charter referring to the schools be
briefly examined:

Sec. 117—"All school districts, high school districts,
union high school districts, and joint union high
school districts, existing within the county of Alameda
at the time this charter shall take effect
shall be governed by One Board of Education, and
the Superintendent of Schools, chosen as hereinafter
provided. The boundaries or any or all of said dis-
tricts may be consolidated or new districts may be
organized in the manner provided by the laws of the
State of California."

Sec. 118—"There is hereby created a Board of
Education which, except as otherwise provided in this
charter, shall be the governing body of all school,
high school, union high school and joint union high
school districts within the city and county
The Board of Education shall have and possess all
powers and be charged with all duties now or here-
after conferred by the Constitution and laws of the
State of California upon county boards of education,
trustees of common school districts, boards of educa-
tion in city school or city high school districts, and
high school and joint union high school districts."

Sec. 119—"The Board of Education shall consist
of nine School Directors, who shall be appointed by
the Mayor of the metropolitan city, one from each
council district and two from the entire city and
county." The members shall serve without compensa-
tion. A majority is declared to constitute a quorum.

Sec. 120—"The Board of Education shall also elect
a Superintendent of Schools, who shall be ex-officio
Secretary of the Board of Education."

Sec. 124—"The Superintendent of Schools shall be
the executive officer of the Board of Education, and,
except as otherwise provided in this charter, he shall
possess all powers and be charged with all duties now
or hereafter conferred by the Constitution and laws of
the State of California upon county superintendents of
schools and superintendents of schools of city school
districts, high school districts, union high school dis-
tricts and joint union high school districts, and such
other duties as may be prescribed by the Board of
Education."

Sec. 125—"All employees of the Board of
Education who are now or hereafter may be re-
quired by law or by rule of the said Board to have
teaching certificates, shall be included in the un-
classified civil service, shall be appointed by the
Board, and may be suspended, demoted or removed
by the Board."

There is more, but these quotations from the
charter bring out the salient points in which the
people are concerned.

From a reading of these sections it is plain,
first, the influence and power of the people over
the school board is nullified. The members are
taken out of the class of elective officers and are
placed under political control. They are to be
appointed by the mayor, who, as experience
eloquently tells us, would see that they worked in
with the political schemes of his administration.

The school board is the largest of only two or
three appointive prerogatives left to the mayor of
the metropolitan district. All other powers are
placed in the hands of City Manager. Ap-
parently—we do not state this positively—the
freeholders thought if mayors must have a few
political spoils they would give him the public
schools.

Oakland, Berkeley and Alameda are at present
possessed of the best public school systems in the
country. Educators rank Oakland and Berkeley
among the best dozen school systems in the United
States. In both cities the members of the board
of education are elected. They are responsible
directly to the people and the people have suc-
ceeded, though at times the fight has been hard,
in keeping the schools out of politics. Oakland
and Berkeley at present have as superintendents
men who are recognized throughout the country
as distinguished leaders in the business of school
administration.

The proposed new charter would put the school
board under the political control of a mayor and
thereby would put the superintendent of schools

and the entire teaching system under the political
control of a mayor.

Under the new charter this politically-created
board of education would assume all the powers
of school administration in the county. It would
consider the county as one district. It would be
empowered to transfer teachers, willy nilly, ac-
cording to its pleasure. It might send a teacher
whom the politicians did not like or who filled a
place desired by some politician's friend from
Oakland to Irvington, or one from Berkeley to
Washington Township.

There is no point any where in the proposed
new agency where the public—the parents of the
children for whom the school system is main-
tained—may touch this mayor's school board
which the new charter would create. If the aim
is to get the schools and the teaching system as
far as possible from the voice and ears of the
mothers and fathers it will succeed infamously
under the new charter.

We have had unfit members of the school
board, but it has been possible for the voters to
put them out of office every four years. Under
the new system the mayor would appoint the
members for six-year terms and the people would
have nothing to say about it.

This turning backward—this subverting of the
schools again to the domination of the political
powers of municipal government—is not a sound
proposal. It has been condemned in practice in
other cities; it should be condemned in advance
in Alameda County, and rejected.

This proposal of the charter is but another
maneuver of the fabricators of the new charter to
take the last vestige of government control away
from the people. The common folk would
not be permitted even to express directly their
judgment regarding the school board.

Not even the opinion of Mr. Wood can make
it a sound proposal. Mothers and fathers must
study this phase of the new charter plot and
safeguard their children and their homes.

ANOTHER HAPSBURG PLOT.

Former Emperor Karl of Austria-Hungary
has again violated the conditions of his domicile
in Switzerland, escaped to Hungary and is now
leading a plot to restore the Hapsburg monarchy
in that country. He aspires to be the king
again.

Allied capitals are disturbed at the new turn
of affairs, as well they may be. They cannot af-
ford to look upon the former emperor's conduct
with neutrality or complacency. There can be
no compromise with the dispossessed dynasties of
the former enemy countries except at the risk of
having to countenance a return of Hohenzollern-
ism and kaiserism in Germany.

But it is impossible to foresee what the Allied
Supreme Council will do. Its habit of accepting
palliatives and evasion where direct action is
plainly required creates doubt. Had the Allied
powers insisted upon bringing the thief offenders
of the war to trial for high crimes against
civilization the present Hapsburg plot would
never have broken out.

Fortunately, perhaps, the Czechoslovak state
on the north and Yugoslavia on the south are
opposed to the restoration of the Hapsburg
power. They almost certainly will adopt mili-
tary measures against Hungary if Karl is per-
mitted to remain within the boundaries of the
latter state. And the Allies probably will sup-
port these neighbors of Hungary in several ef-
fective ways.

Yet it is difficult to believe that the former
emperor would have started on his present ad-
venture if his advisers in Switzerland, of which
there are many, did not believe the possibility
of success would attend it. There is a strong
suspicion that word had been carried to Karl
that France and England would not seriously
oppose his restoration in Hungary once it was
accomplished. But in view of all the terrible
history of the last seven years, it does not seem
possible that such a message could have been true.

If any reliance is to be placed in the past
assertations of the French and British govern-
ments and in reports of the disposition of the
governments of Czechoslovakia and Yugoslavia,
the former Hapsburg ruler is pursuing a forlorn
hope.

General Pershing, in the name of the Con-
gress and people of the United States, last week
placed the Congressional medal of honor, the
highest decoration awarded by the American
government, upon the tomb in Westminster
Abbey of an unknown British soldier who fell
in the great war. The ceremonies were most
elaborate and engaged the attention of the
highest officials of the British government.
Nothing was omitted that would impress upon
the world the high regard in which England
holds this act of honoring one of her unnamed
heroes. Speeches of happy phrase and temper
were spoken by Premier Lloyd George and Gen-
eral Pershing, calculated to add further cor-
roboration to the relations between Britain and the
United States. But the whole affair almost
became a deplorable incident through the blun-
dering inattention of British War Office officials.
They apparently pigeonholed the notification
that General Pershing was in France with the
medal of honor for the British soldier and was
awaiting the appointment of a day on which the
decoration might be delivered. It required the
most feverish activities of the foreign office to
get matters smoothed out.

NOTES and
COMMENT

It is stated with some emphasis
that "Congress should definitely lo-
cate it (the naval base) and settle the
controversy." Congress has settled it
so far as members of that body can
settle it by inspection and report;
and naval officials—the best authority
—have at least twice given in their
conclusion, all for the Alameda site.
What seems to be desirable is to re-
strain the influences that are able to
unsettle it in preventing action in ac-
cord with the decision.

Criticism has been evoked as to
twenty-eight United States Senators
who were found to be absent from
their posts, and even from Washing-
ton, when the taxation bill was up
for consideration. The bill is of un-
doubted importance, and the only
comfort the country can take in the
matter is to conclude that possibly
the absences will result in greater
advantage to those who will be af-
fected by the new bill than their
presence.

Generally the man in the contro-
versy who invites his antagonist
"outside," to settle it in a less amic-
able way than by argument, is a brag-
gart, and expects to get away with it
by the other party refusing the invita-
tion, but the Auburn man who in-
vited out the Justice of the Peace
who did not decide in his favor was
an exception. The Justice promptly
accepted, and the pot-vulgar individ-
ual took to his heels. It was a char-
acteristic exemplification.

It is difficult to get in line with the
reasoning of the chief of the locomotive
engineers—that "if some way is
not found" to avert the strike next
Sunday, the brotherhoods will lay
the blame upon the United States
Labor Board." It seems to be rea-
sonably plain that the most certain
way to avert the strike would be for
the brotherhoods not to strike.

If anybody is planning to start
something in Lower California, as
seems to be the case from the San
Diego despatch which tells of the
seizure of arms and ammunition
squelching movements by two gov-
ernments will be highly justified.
Just when things are quieting down
on this side of the earth the persons
or forces or interests that would stir
them up again deserves small consid-
eration from law-abiding people.

It is not as assuring as some peace-
loving people would like it to be that
it seems to require ten thousand sol-
diers to guard the American embassy
at Paris. Probably it did not require
such a force, but the authorities must
think the situation is serious that so
many, or any considerable number,
were mobilized. The government
will show a weakness if it cannot
summarily smother a communist up-
rising such as this is reported to be.

Germany is evidently not afraid of
"big business" in government when
Hugo Stinnes, the coal baron and
greatest figure in business affairs to
emerge since the war, is called to
form a cabinet. It is creditable to
the Germans that they realize so
directly that what their country
needs just now is the highest business
ability that is attainable.

Portugal did not attract much at-
tention during that time when the
rest of the world, more or less, was
in turmoil, but it is now having a ruc-
tion all its own. Its trouble is of the
reverse order—due to an effort to
restore a monarchical government, in-
stead of overthrowing one. It is a
solitary instance.

SPIRIT of the STATE PRESS.

Colusa provided its people with a
swimming pool. During the past sum-
mer admission receipts totaled
\$2347.45. A rough estimate accord-
ing to report will show a net profit of
\$600. With profits accruing each
year Colusa can make improvements
in her swimming pool. This is only
an example of what any community
made do.—Marysville Appeal.

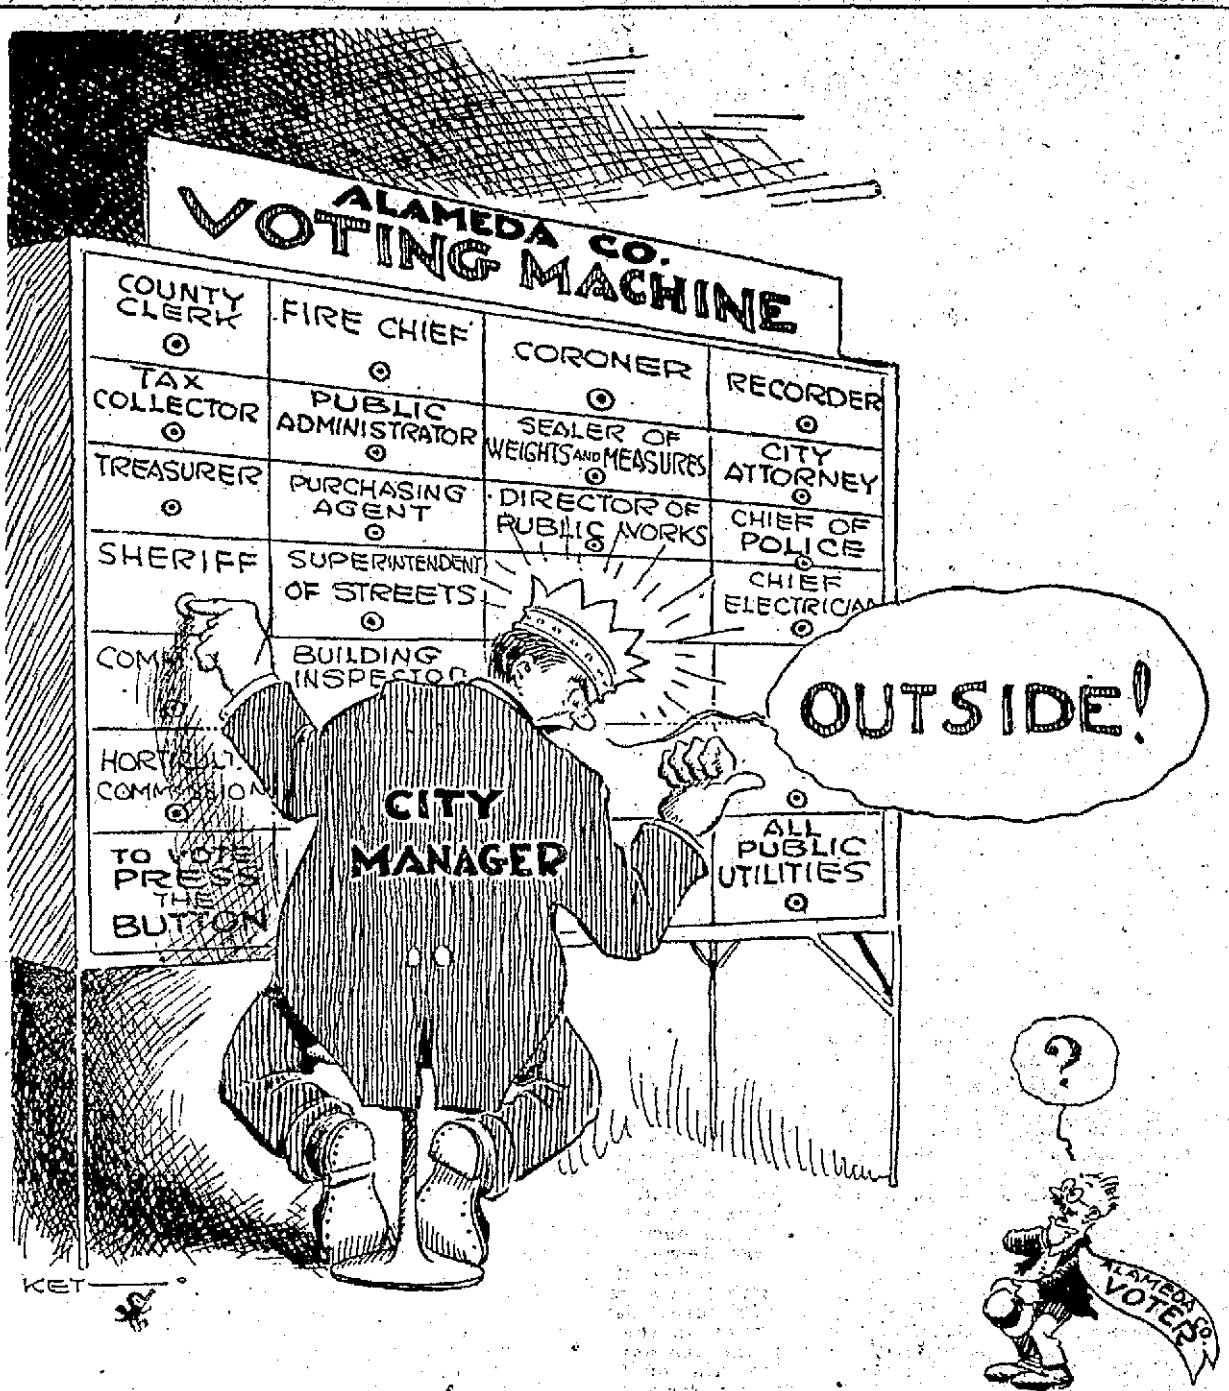

A Fresno man has been sued for
\$5000 because he left the left
engine of his automobile running, ac-
cording to the complaint, and it ran
down a slope into a man's house,
knocking down the wall and injuring
the man's wife. Expenses for repair-
ing the house are also asked.—Stock-
ton Record.

California is to come into her own
with the Atlantic and Pacific fighting
fleets joined into a great armada and
stationed in the Pacific with head-
quarters at San Francisco bay. Ad-
miral Hilary Jones, now with the
Atlantic fleet, is scheduled to take
command with the new super-dread-
naught California as his flagship.—
Stockton Record.

After two days of equivocation, W.
D. Anderson furnishes the news-
papers a statement in which he ad-
vises having sent the notice that "10,
000 jobs for men" in California,
to the New York World and other
eastern newspapers, and seeks to
justify it by reciting his troubles with
building trades mechanics.—San Ber-
nardine Sun.

A "Moonshiner's Union" is the
latest. The purpose is to protect its
members from arrest and provide a
fund for their defense in case they
are arrested by prohibition officers.
The organization was born in Wis-
consin, and the parent union is said
to consist of 200 farmers who each
paid a \$5 initiation fee.—Mountain
Messenger.

W. W. Wallace, who for the last two
years has filled the position of sec-
retary for Richmond Chamber of
Commerce, fled suit in Martinez
Monday against the directors of the
chamber for his back salary, which
runs into four figures. Former Dis-
trict Attorney Tom Johnson is em-
ployed by Wallace to induce the di-
rectors to "cough up." The direc-
tors are "sawing wood."—Richmond
Terminal.

JUST FOLKS. By
EDGAR A. GUEST

SOMEBODY'S CHILDREN ARE ALWAYS NEAR.
Somebody's children are always near,
Never need mother and father fear
That they shall come to a childless
day.
Though the years grow lonely and
sad and long,
And out in the world must our
babies go,
There shall always be laughter and
mirth and song,
And trumpet and drum for us all to
know.
And what if these babies are not
our own,
We may play with them and may
love them, too,
We may hear in their laughter the
laughter of our own
And claim the gladness that once we
knew.
Oh, whether we're old or whether
we're sad,
Or whether we've come to life's last
short mile,
We can borrow from somebody's girl
or lad,
An hour of joy in the land of smile.
(Copyright 1920 by Edgar A. Guest.)

Supremacy of Mother Love
Recognized By Early Indians

(Mrs. Sarah Ellis Ryan, author of
the following article from the Los
Angeles Times, is curator of the arch-
eological department of the South-
west museum at Los Angeles and an
accepted authority on the archeology
of South and Central America and
Southwest United States.)

Treasures of archeology are like
fragments of amber in which the
records of ancient life are imprinted.
Without language, they yet
speak to us of people strange and
alien, whose art instincts influenced
the decorative tendencies guided
the form of that expression.

"By their works shall ye know
them" applies especially to the re-
mains of the ancient Americans—
the vast network of ancient pueblos
and cliff dwellings in Southwest
United States and the magnificent
temples in Central American jungles.
One might emphasize that by a
statement that only by their works
can they be known to us since no
written records have ever been found
to give us a true key to the ide-
as of the Mayan literature.

But through the native books of
Chilan Balam—written after the com-
ing of the Spanish to Mexico—we
know, at least, that their devo-
tional ceremonies were not very dif-
ferent in Mexico and Guatemala
from those of our various house
building tribes of New Mexico and
Arizona. The mythology of the
South was elaborated to a greater
extent—but it was merely the dif-
ference between Titani of a hermit
priest and one of vast cathedrals,
where an archbishop presides. The
fundamental thought or faith in each
case was the same.

Whether it be Hathor of Egypt,
Prithiva of India, Gaia of Greece,
Great Goddess of Samothrace or the
Earth Mother of Guatemala and our
Pueblos, the genesis of unseen force
as comprehended by the primitive
mind is always based on the earth
as the mother from whom we come
to life. The Mother—Earth—whose
breast provides our food, and the
Mother—Earth—who, at last, as
Goddess of Death, gathers us within
her arms to rest.

The maiden—the unproved one—
seldom enters into important cere-
monies of tribal life. Therefore it
is one who has been a mother, who
certain seasons of the field work,
goes alone, in the dark of the moon,
to walk—nude—as the gods are—in
a circle around the field where the
corn is planted, and, as priestess,
makes prayers there for a strong
growth of the earth-covered seeds.

The mother is head of the family
to the extent that the children be-

AWAKENING INTEREST.

John Apperson is improving the
looks of his farm by building a new
porch to his house. We don't know
what his intentions are, whether he
is wanting to sell out or get mar-
ried. We will find out and report
later.—Green Forest Tribune.

THE HUMANITARIAN.

"I use this horrible shriek horn on
my motor car for humane reasons,"
explained Lieutenant Husted. "It
can paralyze a pedestrian with
fear, he will stand still and I am less
likely to run over him."—Arklight.

While with two notes is evidence
that it is a part of unknown, tribal
ritual of devotion to the goddess of
growth and harvest. In Mexico
there was a similar goddess identi-
fied by a name which meant "Heart
of the earth." The whistle suggests
brown devotees chanting their pray-
ers at the changes of the moon and
sending over and over the intended
call of the two notes from the flute,
formed in gracious likeness of the
goddess—calling in all faith, through
her symbol, for continuance of her
benefactions.

One of the mystic chants of the Ti-
hauian tongue as recorded by
Sahagun gives the tone of adulation
by which the goddess was propiti-
ated. It is among the earliest recorded
evidence that very like enthusiasts
can find excellent classic models in
our aboriginal literature.

Hail to our Mother, who poured
forth the seeds of life in abundance,
who scattered the seeds of the Man-
gu as she came forth from the
Home of the Gods!

Hail to the goddess who shines in
the thorn bush as a bright butterfly.
Hail to the goddess who, goddess of
the earth, she supplies food in the
desert.

Thus—thus she is seen to be an
over from goddess of life.

about YOUR
HEALTH

What You Ought to Do
To Keep Always Feeling Fine
By ROYAL S. COPELAND, M. D.,
Commissioner of Health,
New York City.

Getting well is a harder and
sterner task than keeping well. Take
my advice and preserve your health.
Being sick is unpleasant for you
and it upsets the entire household.
While you are getting sick you are
cross and irritable. You hurt the
feelings of your family and friends.
You leave your work unfinished and
do badly what you undertake.
If you are taken sick in the night
you awaken the house and frighten
every one half to death. There fol-
lows a rearrangement of the sleep-
ing quarters and your care takes
from other duties the energies of one
or two of your family.

If you are seriously sick you lose
your position, possibly, or at least
must face the certainty of decreased
income. Then you must meet the
heavy expense of doctor, nurse and
druggist. Mother must assist so
much in the sick room, relieving the
nurse at night, perhaps, that addi-
tional help may be needed in the
kitchen. All in all, the financial, as
well as the physical situation is
grave, and, to put it mildly, the
whole domestic machine is out of
gear.

WATCH YOUR DIET.
Probably you get along pretty well,
and in a week or two—or in a month
or two—you are out of bed and
walking about a little. You may go
back to work, but you are just drag-
ging yourself along, and for months
feel miserable, "way below par."

You begin to realize that getting
well is hard work. You blame your-
self for neglecting your body and its
needs. You realize as you have not
done for a long time, how important
to you your health really is.

Keeping well should be your aim.
It ought not to stare you in the face
like the goal posts in a football field.
It should not become the sole end
of your life. If you think and talk
too much about it you may become
morbid. There could easily grow up
in your mind a fear of illness and a
dread of uncomfortable symptoms of
any sort. Good sense must temper
your pursuit of health.

Study your stomach. Find out what
foods disagree with you, and, having
determined to get well and to keep
well, avoid them hereafter.

Study your body as regards its
need of sleep. Make it your inex-
orable rule to get the necessary number
of hours of restful slumber.

Bear in mind that exercise, fresh
air, frequent bathing and the con-
sumption of plenty of good water are
essential to your health.

Don't eat between meals, and
avoid foods and drinks of doubtful
quality. Why some folks will buy
stuff from any vendor, and—regard-
less of quality—all their stomach
with it, is more than I can under-
stand. Have some respect for your
digestion.

Don't forget that bad air, the
breath of the sick, the "propleta
into the atmosphere by the
coughing, sneezing or loud talking
of infected persons are dangerous.

You must guard against wet feet,
chilling of the body, undue fatigue,
worry and sleepless nights.
Somehow, the best things in life
are won by sacrifices, or by what
seems at the time to be sacrifices.
If you would keep well, you will re-
sist the wrongful demands of your
appetite.

No matter how great your sacri-
fice may seem, it is far better to
keep well than to get well, isn't it?

TODAY 20 YEARS AGO

Isaac Meets His Match.
Weary Willis slouched into the
pavement.
"How much will you give me for
this overcoat?" he asked, producing
a faded but neatly mended garment.
Isaac looked at it critically. "Four
dollars," he said.

"Why," cried Weary Willis, "that
coat's worth \$10 if it's worth a
penny!"
"I wouldn't give you \$10 for two
like that," sniffed Isaac. "Four dol-
lars or nothing."

"Are you sure that's all it's
worth?" asked Weary Willis.
"Four dollars," repeated Isaac.
"Well, here's yer \$4," said Weary
Willis. "This overcoat was hangin'
outside yer shop and I was wonder'
how much it was really worth."—
Argonaut.

A Comic Fortune.
"My face is my fortune," simpered
the girl.
"Well, it might make money for
you in comic films at that."—Louis-
ville Courier-Journal.

ELIJAH UP TO DATE.
Jacky was looking at a picture of
Elijah going up to Heaven in a
chariot of fire. Pointing to the halo
about the prophet's head, Jacky
called out: "Look, daddy! He's
carrying an extra tire."—London
Opinion.

CHICAGO LAWYER THREATENS SUIT FOR DEFAMATION

Oberchain Counsel Resents
Charges of L. A. District
Attorney.

LOS ANGELES, Oct. 25.—Charles Erbsstein, chief counsel for Madalynne Oberchain, will sue District Attorney Thomas Lee Woolwine for heavy damages for alleged defamation of character, according to a statement given by Erbsstein to the Los Angeles Record today.

Erbsstein's announcement follows a sharp attack made by the district attorney on the Chicago criminal lawyer yesterday in the superior court here.

Woolwine offered "vigorous and unqualified" objection to the court granting privilege to Charles Erbsstein, of Chicago, of appearing as attorney for Mrs. Oberchain.

ERBSTEIN IS CHARGE.

"I believe him to be a person wholly unfit to practice law at this bar," Woolwine declared.

Erbsstein declared that the charges were entirely unexpected.

"All these charges against me were made and disproved in Chicago," he said, "and every judge in the courts of Chicago will vouch for me and my character."

Judge Reeve, without comment, referred District Attorney Woolwine's objection against Erbsstein's admission to practice in California courts to the Los Angeles Bar Association.

PASS REVOKED.

Today Erbsstein was denied "all special attorney's privileges" at the Los Angeles county jail. The jail pass, given to Erbsstein before Woolwine preferred the charges, has been revoked, which means that the Chicago attorney may visit his client on only two days a week and then for periods of only twenty minutes.

That is according to the regular rule governing visiting at the jail.

Trial of Arthur Burch on the charge of murder of J. Bolton Kennedy was set for November 1, by Judge Reeve. District Attorney Thomas Woolwine made no objection to a motion for separate trials for Mrs. Madalynne Oberchain and Arthur Burch, and elected to proceed first with the trial of Burch.

AMERICANS AFTER EGYPTIAN TRADE

CAIRO, Oct. 25.—American business men in Egypt are fighting to retain the trade between America and Egypt which was developed during the war when the nations of Europe were too busy to attend to their foreign trade. This war-time trade gave American exporters a foothold, but since the war European competition has been resumed.

The establishment of an agency in Egypt of the United States Shipping Board, followed closely by the opening of branches of the American Express Company, has stimulated and encouraged the American colony here. Individual Americans have created local American firms in association with Egyptian business men to promote trade with America and have created the organization necessary to handle the interests of American manufacturers and shipowners.

The recently organized American Chamber of Commerce is exerting every effort to assist American business interests to meet the keen European competition and to maintain the position secured during the past few years.

Prior to 1914 the United States was commercially a small factor in Egypt's trade. During the war, when Egypt was cut off from the manufacturing centers of Central Europe, the Egyptian importer turned to America and Japan. American goods flooded into Egypt and the buying public became familiar with American goods. This marked the first step in the development of America's trade with Egypt.

War prices for cotton greatly enriched the country and America benefited by the increased importations of luxuries, especially of automobiles, and by a good business in wheat and flour.

The enormous increase in business compelled the American tire manufacturers to buy large quantities of the long staple Egyptian cotton. Importing in 1919-1920 over 250,000 bales. The English coal strikes brought big coal contracts to America. Thus in a few years America was ushered in as the opportunist to play an important role in Egyptian trade.

By 1919 American exporters realized somewhat the importance of the Egyptian market, and some export houses established branches in Alexandria and Cairo. Inexperience and the world crisis combined to defeat these attempts of the American exporters in many cases, but interest has been aroused and American trade is active in keeping its foothold.

'BOYS' WHO WORE GRAY IN SIXTIES HOLDING REUNION

CHATTANOOGA, Tenn., Oct. 25.—The fast dwindling band of those who in the '60s shouldered their guns under the stars and bars gathered here today for the annual reunion of the United Confederate Veterans' Association.

The sound of military music through the streets, the grizzled veterans in the old gray uniforms and the khaki-clad younger generation of soldiers gave the city a military appearance.

Meeting with the veterans are the Sons of Confederate Veterans and the Southern Confederate Memorial Association.

BRITON LOST IN PARAGUAY WILDS

BUENOS AIRES, Oct. 25.—It is feared that Audley Heron Gosling, 17-year-old son of Cecil Gosling, British charge d'affaires to the Czechoslovak republic in 1918, is dead in the wilderness of the Paraguayan Chaco.

The boy left Buenos Aires in August for a hunting expedition into the Chaco with some friends. One morning, before breakfast, he picked up his rifle and said that he was going on a short walk for game.

When he failed to return the Indian guides with the party followed his trail for miles into the densest part of the Chaco, but neither they nor any of the expeditions which have later scoured the country have found any trace of the boy.

The day was cloudy and it is believed that, perhaps in pursuit of game, he lost his bearings. Instead of returning to the camp, he plunged into an almost trackless country, devoid of water. At one place a tree was found which he had evidently climbed to find out where he was. Although it is believed that he is dead, a search is being made for him by the missionaries and Indians of the region.

VIRGINIAN FINDS COIN DATED 1329

SPARKSBURG, W. Va., Oct. 15.—Did African slaves roam the soil of West Virginia two centuries before Columbus discovered America? That is the question puzzling coin collectors and ethnologists of the state.

Joseph Naselle Stealey, aged 14, son of Joseph C. Stealey of No. 322 North street, has just dug two coins, approximately 600 years old, from a virgin vein in a small mine near his home, finding them firmly embedded in the seam while helping his father at the mine.

One coin is silver, the other copper. On one side of each is a crude picture of a human head or skull. On the other one bears the date of 1329 and the other the date of 1330, while there also appears a unique design similar to that found on rare specimens of African postage stamp, thus indicating that the coins may have been of African origin.

Now, this being the case, could African slaves have roamed what is now West Virginia six centuries ago? If so, how did they get here? Furthermore, could the seam of coal be formed geologically within that time?

The State Department experts have just completed a study of the decision and report that it does not meet all of the demands of this government with regard to American property rights in Mexico, although it obviates some of the difficulties of the past.

KATO, NIPPON'S NAVY MINISTER, PEACE APOSTLE

Japanese Admiral Will Fill
Important Role At
Conference.

TOKYO, Oct. 25.—Simplicity and modesty are the striking traits of Admiral Tomosaburo Kato, minister of marine, who as Japanese delegate to the Washington conference, will fill a most important role in the deliberations there. It was Kato's statement to the Associated Press last year which first let the world know that Japan was ready seriously to discuss armament limitation. As evidence of sincerity he announced that his country would not necessarily insist upon the completion of the much talked-of 8-8 program; that is to say, the maintenance of eight dreadnaughts and eight battle-cruisers.

Japan's naval minister is not only a man of proven sea calibre, but he is a statesman of achievement. A conservative Japanese newspaper said that he could handle all the problems that may conceivably be brought up at the conference with as much intelligence and skill as any body else. But his strongest recommendation is that of being a man of decision who will not hesitate to assume necessary responsibilities at important moments without reference to the home government.

Kato is really the builder of Japan's modern navy. He has, in fact, been the head of Japan's marine since August, 1915, collapse of ministries having left Kato unaffected because his capacity was held to be above all considerations of politics. He was born February 22, 1859, in Hiroshima, and after passing through different grades of the service, he took an eminent part in the Russo-Japanese war, being chief of staff and officer of the famous battleship, the Mikasa.

He was appointed vice-admiral in 1908 and became minister of navy under the Okuma cabinet.

Admiral Kato's long service as minister makes him the senior member of the cabinet, next to the premier. A prominent Japanese said of him:

"Admiral Kato has a clear head, is mathematical and well versed in international issues, upon which he possesses his own original ideas."

Kato's namesake Admiral Sadakichi Kato, paid a great tribute to the delegate's intellectual penetration, resourcefulness and rapidity of decision.

"Had he been a statesman, pure and simple," said the admiral, "Kato would have been a great statesman."

WIN A \$10 PRIZE! ENTER TRIBUNE'S CARTOON CONTEST

First Picture Appears Next
Monday; Here Are All
the Rules.

What's in a name? Usually nothing—but there are exceptions to everything. For instance, the TRIBUNE is willing to pay \$10 for the best name of cartoons which will appear in its pages at intervals. A cartoon without any title will be published in the TRIBUNE each Monday evening next.

Every TRIBUNE reader is invited to write a title for that cartoon, and the winning title will bring its writer a cash prize of \$10. The cartoon and the best title, with the name and address of the writer will be published in the TRIBUNE on the following Sunday.

So get out the old pencil next Monday night and study carefully the cartoon which will appear in that issue of the TRIBUNE, and after you've thought out a good title, send it into the Title Editor. If your title is the best it will be published under the picture Sunday and \$10 will be promptly forwarded to you.

Before you send in your title read the following rules of the contest carefully:

The titles must be written on a postcard and addressed to the Title Editor, Oakland TRIBUNE.

The titles must not exceed twelve words in length.

They must reach The Oakland TRIBUNE office on the Thursday night following the Monday the picture is published.

One person may send as many titles as he wishes, but only two on one postcard.

SIBERIA THROWN OPEN UNDER NEW REGIME'S POLICY

Order Well Maintained in
North Russia, Says Tokyo
Professor.

TOKYO, Oct. 25.—Professor Yasugi of the Tokyo Foreign Language School, who has just returned from a tour through North Sachalin and Kamchatka, says that Petrovskiy is now under the administration of five representatives of communists. The dictators are by no means influential, nor is their administrative policy anything like that of Bolsheviks. Without army or any defensive equipments, the district is entirely thrown open to foreigners in general.

He continued: "The chief of the dictators is young, but is the possessor. It seems to me, of a good character, and their administrative policy against the Japanese. At present order in these quarters is well maintained. The entire shore region of Kamchatka is most suitable for fishing and the majority of the Japanese residents are engaged in that enterprise in complete safety under the protection of warships dispatched to the district by the Japanese navy. Among the residents are Chinese as well as Americans, though in limited number."

He continued: "The chief of the dictators is young, but is the possessor. It seems to me, of a good character, and their administrative policy against the Japanese. At present order in these quarters is well maintained. CURTAINMENT OF ARMS IS URGENT, JAPANESE SAYS

Party Leader Urges Tokyo to Give Up "Special Position" in China.

TOKYO, Oct. 25.—"The proposed curtailment of armament expenditure is urgent," said President K. Inukai of the Kokuminto party, addressing his fellow members at party headquarters. Japan has a golden opportunity at the Washington conference. Japan should make her position quite clear to the world in the hope of convincing it of the peaceful and negative policy of this empire in regard to the construction of armament.

"The probability is that the China question will constitute the most serious element of the agenda. The Japanese should be advised to give up their so-called special position in China and to compete with others on fair ground. In respect of capital, Japan is no match for the other powers but she is nevertheless, in a favorable position in China because of topographical advantages, a larger number of residents there, and similarity in literature and language. But only when she assumes a fair and open-minded policy toward China will she find the Washington conference opportune for securing a proper understanding with the other powers regarding her own position in the world."

ACCUSED OF MURDER. MONTROSS, Va., Oct. 25.—A separate indictment charging Miss Sarah E. Knowlton, Baltimore nurse, and Roger D. Eastlake, navy petty officer, with first degree murder in connection with the death of the latter's wife, were returned by the Westmoreland county grand jury. The body of Mrs. Eastlake, badly mangled, was found September 30 in the cottage occupied by the family at Colonial Beach.

BANQUET GIVEN FOR STAFF OF OAKLAND FIRM

Last Saturday evening the annual holiday banquet which Whittier & Swan tender to their organization every year took place in the grill room at the Hotel Oakland.

An extensive entertainment headed to make the evening a most enjoyable one. Miss Pearl Hickman's Kiddies presented a charming revue of songs and dances; "The Senators," the 750-club of harmony, gave several selections; and the vocal numbers by Miss Frances Bailey were particularly enjoyed and enthusiastically endorsed. Hawaiian songs and dances and the Spanish fandango were presented by Miss Burton, Miss Michelson, Mrs. Ball, Mrs. Caton and Prusso, to the accompanying music of "Ray Beecraft's Midnight Rollickers."

Serpentine, balloons, favors, floral decorations, made the big dining room a fairland like scene and jolly noise makers added to the prevailing carnival spirit. The entire regular organization, over 250, attended. After the banquet, dancing was enjoyed. The committee, who so successfully arranged and managed the affair, consisted of Miss Helen Burton, the superintendent and Messrs. Edward Prusso and Forrest Briscoe.

Oakland Musician Passes in Kansas City

Word has been received here of the death last Monday in Kansas City of Professor C. F. Mills, local teacher of the piano, who was visiting at the home of his sister, Mrs. S. Merrill. The funeral was held last Wednesday.

Death was due to a stroke of paralysis. Prof. Mills had made his home at 5725 Telegraph avenue, Oakland. He was 54 years of age at the time of his death. He had intended to go from Kansas City to Chicago to visit a daughter, Mrs. A. Bird. In addition to Mrs. Bird and Mrs. Merrill Prof. Mills is survived by Mrs. L. Borland, 5465 Claremont avenue, Oakland, a stepdaughter. Professor Mills was born in Thompson, Conn., and came to Oakland about five years ago.

ACTIVITIES OF WOMEN

Wedding Comes As Surprise To College Set

With the arrival in New York on October 15 of the Misses Katherine and Gertrude Bangs and their sister, Mrs. Aldrich Barton, Eastbay friends little suspected the announcement of the marriage of Miss Katherine Bangs, daughter of Mrs. Franklin Bangs of this city, and Carl Fernstrom Jr., member of an old Southern family of Norfolk, Virginia. The ceremony was read in the Little Church Around the Corner last week in the eastern metropolis.

Mrs. Fernstrom and her sisters had returned but a few days before from a tour of Europe.

The romance originated two years ago in Virginia, when Mrs. Fernstrom was the guest of her sister in Virginia. The bride was graduated from the University of California and a member of the Kappa Alpha Theta sorority.

Fernstrom received his degree from the Boston Institute of Technology and is a civil engineer. The home of the couple will be in Norfolk upon their return from their wedding trip.

Betrothal cards received on the week-end revealed the engagement of Miss Katherine Bangs of Berkeley and Louis Domercatsky of Washington, D. C., to the bride-elect's sorority sisters. Miss Partridge is one of the accomplished young women of the University set and is a sister of Mrs. Robert Underhill, Donald Partridge and Lieutenant Stanley Farrington, U. S. A., who is stationed at Camp Travis, Texas.

MISS NORA CRANE of Texas, who is the house guest of her sister, Mrs. R. W. Kearney, at the home of the latter in High street, Alameda. Miss Crane is the daughter of General W. Crane, U. S. A., former lieutenant governor of Texas. (McCallagh Photo)

Club Plans Halloween Fete For Students

By EDNA B. KINARD.

Even university men and women may consort with ghosts and goblins. On the Berkeley Alliance of Jewish Women has conceived. Hence comes the invitation, upon gray cards flummage with bats and witches, to the students in the University of California to be guests of the Alliance at a Halloween party on Monday evening, October 31, in the Young Women's Christian association building, Union and Alameda ways, Berkeley.

"Come early in cords and kink-hams," the hostesses of the informal jinks bids.

Playing hide sisters, tender mothers or sympathetic confidant to the university boys and girls away from their families is the principal object of the Alliance. The Alliance is a women's organization. To insure against homesickness, to afford opportunities to meet friends is a purpose of the group, whose headquarters is in Berkeley.

The Alliance launched its happy undertaking at the opening of the fall semester, entertaining at a dance in the Twentieth Century Clubhouse. So successful was the inaugural event that a series of reunions for the group and those whom they claimed as friends was promised. That promise is being made good in the announcement of the Halloween party. A large number of the most prominent among the Jewish women in the cities surrounding the bay are affiliated with the Alliance, which is giving a special welcome to the university students in their community and in their private lives.

The charter to be offered to the voters of Alameda county in a school bond issue will be discussed Thursday at 2:30 p. m. in the auditorium of Claremont school, under the auspices of the Parent-Teacher Association. The school board will present the claims of those who are favoring the adoption of the charter scheme. Carl Brockhagen will represent those who declare that adoption of the charter at the November election will mean county division. Women residing in the neighborhood of the Claremont school are urged to attend the arguments.

The school women's club of Oakland are calling upon the several hundred members to attend a discussion of the charter in Chabot hall tomorrow at 4 p. m. The program will be open to the public. Dr. George C. Farde, favoring the adoption of the charter, and Joseph R. Knowland, opponent of the scheme, will be the speakers. Miss Joyce Lebowitz, president, will preside. The program is open to the public.

Friday evening, November 18, has been announced as the date for the annual jinks of the School Women's Club. Technical high school auditorium will lend accommodations to the program.

A Harvest Festival, in the guise of a Halloween dance and whist party, is announced by the California War Mothers for Monday evening, October 31, at the Home Club. Mrs. M. S. Murray, state president, leaves on Thursday for the National Council of Women which convenes in Philadelphia on November 10. The benefit is arranged that the state treasury may be reimbursed and that the California delegates may be sent with appropriate setting. Large committees are arranging the details for the festival.

Mrs. Cornelia Shaw is a second California woman who will be honored in the east next month. When the ceremonies attending the interment of "The Unknown Dead" in Arlington Cemetery on Armistice Day—November 11—Mrs. Shaw will be among those present as a Gold Star mother of an "unknown dead hero." San Francisco war mothers are sending her as their representative.

With Governor William D. Stephens and members of the Advertising Club as the special guests of honor, the October dinner of the Business and Professional Women's Club on Thursday night in Aahmes Temple, will be among the notable events of the week. Special stunts and surprises for professional women of the city and members of the club are being arranged. The Governor is announced for an address.

SHIP OWNER DEAD. BATH, Me., Oct. 25.—Gardiner O. Deering, long active as a ship builder and owner, died yesterday. He was 58 years old last Tuesday. He was reputed to be the oldest active shipbuilder in the country, with more than 100 vessels of various types and rigs to his credits.

CITY DREDGER'S FAILURE TO FAIL CONFOUNDS CREW

The municipal dredger has hung together nearly a month. Like an ailing patient, always expected to collapse, the dredger has been watched day and night by the officials. But the collapse has been only delayed. The dredger is sailing along and pulling mud out of the bay bottom in spite of the illness of its skipper, Tom Aiken, who is down with scarlet fever.

The last time the dredger was patched it only lasted two weeks. "We do not understand it," admits Executive Secretary Ralph York. "According to previous performances, the dredger was scheduled to quit October 11, at noon sharp. Now it is still going. We suspect it will keep on for a week or two more, but we can't tell. When one has a temperamental dredger on his hands, he cannot peer into the future."

The plans for the real, permanent repairs to the big craft are being held up pending the arrival of electric devices from Schenectady, N. Y.

Painter Accused of Wife Murder Is Sane

ROME, Oct. 25.—Allentons who examined Luis Ignatius Mesones, the Peruvian painter, who in 1920, was arrested charged with the murder of his wife, report that the prisoner is sane. His trial will begin shortly.

In January last a despatch from Rome said that Mesones had confessed that he had taken his wife into the woods and shot her. After the killing Mesones was tried for forgery and sentenced to three years' imprisonment.

Don't miss this great sale, for it is the opportunity of a lifetime. Here is your chance, the first of its kind Oakland women have ever had to select an individual pattern hat, right at the beginning of the season at such a sensationally low price.

This is just an example of the bargains that are made possible by Fred W. Hogg's big buying power, low rents and low overhead. Take advantage of this sale and select a pattern hat for fall at only \$9.98.

When in San Francisco visit our Store at 883 Market (Upstairs)

Makers of Van Raalte Silk Underwear say:—Wash silk underwear in LUX

WHISK one tablespoonful of Lux into a cold lather in half a bowlful of very hot water. Add thick water till lukewarm. Dip garment up and down, pressing suds repeatedly through soiled spots.

Rinse in 3 lukewarm waters. Squeeze water out—do not wring. Roll in towel; when nearly dry, press with a warm iron—never a hot one.

JERSEY AND GEORGETTE CREPE should be stretched to shape before they dry and should also be shaped as you iron.

MADE IN U. S. A.

SILVER TEA FRIDAY AFTERNOON.
A silver tea will be given Friday afternoon from 2 to 5 o'clock at the home of Mrs. A. W. Mavor of 2705 Central avenue, Alameda, where the proceeds to be used in aid of the bazaar to be given by the Woman's Auxiliary to the Victoria Memorial in the Overseas Club, 430 Sutter Street, San Francisco, the first Saturday in December.

Mrs. Mavor, whose work in the war charities is well known, was decorated by General Pershing for knitting the greatest number of garments for the soldiers and sailors.

Mrs. E. A. Nowland, chairman of the Oakland chapter of the Auxiliary, will assist Mrs. Mavor at the tea.

The former Peter B. Kline home in Thousand Oaks has again changed owners, having recently been purchased by Mrs. Vernon Churchill of the northern part of the state. Mrs. Martha Elsie, who was the previous owner, is at Cloyne Court, where she will make her headquarters until her departure for Europe.

BENEFIT TO BE FOR VASSAR WORKSHOP.
In December a children's party will be given at the Berkeley Tennis Club. This is to be sponsored by Mrs. Elmer Breckenfeld, Mrs. Buford Payne and Mrs. Edward von Adelung. A children's play written for the Vassar workshop, entitled "The King and His Temper," by Doris Bullard, will be presented. In the cast will be Miriam Dungan, Leslie Phelps, Betty Perkins and Dart Tinkham. The pupils of Miss Virginia Marvin will entertain with a number of dances.

Miss Emmy Lou Cox of Berkeley has sent out invitations for the afternoon of November 4, when she will be hostess for Miss Audrey Williams, fiancée of Evan Evans of San Rafael, and sharing the honors will be Miss Avery Ransome, betrothed of William Green. A score of friends will be guests.

DANCES FOR THE SCHOOL SET.
Fall brings with it a round of parties for the younger set and one of a series of these is planned under the auspices of the Town and Gown Club of Berkeley for the children of the Junior high school age.

The series is to be given upon the following dates—November 11, December 30, February 17 and March 31.

Serving as patronesses will be Mrs. Walter S. Morely, Mrs. Frank P. Daniels, Mrs. Roydon Woolsey, Mrs.

Painter Accused of Wife Murder Is Sane
ROME, Oct. 25.—Allentons who examined Luis Ignatius Mesones, the Peruvian painter, who in 1920, was arrested charged with the murder of his wife, report that the prisoner is sane. His trial will begin shortly.

In January last a despatch from Rome said that Mesones had confessed that he had taken his wife into the woods and shot her. After the killing Mesones was tried for forgery and sentenced to three years' imprisonment.

OAKLAND TRIBUNE, Oakland's greatest evening newspaper, assures its advertisers that the circulation of this paper reaches every day over 250,000 readers.

Daily ALMANAC

by Ad. Schuster

TUESDAY, OCTOBER 25.

Chester Dewey, scientist, who became famous because of his studies of the grasses, was born in 1784. The frigate Macedonia was captured by the frigate United States in 1812. It was one year later that William L. Hearndon, naval officer who explored the Amazon Valley for the government, was born. Pine Bluff, was fought in 1863.

Joaquin Miller, of course, had no idea of boroughs or city managers when he wrote his poem to Berkeley. As a result, if this new charter scheme should be put over there will be need for revision of the famous verses. Perhaps they will read:

Say, what has become of the great Bishop's town?
Lost is its voice and its will
and its pride.
Plucked out a city, a borough
set down a city, a borough
faded the fame that has
been nation-wide.
City of cities, forgotten to be,
A borough where once was the
proud Berkeley.

CARPING AT CARP

Sir, Lewis Carp has sued his wife, Fanny, for divorce because she called him hard names. Wonder if she ever referred to him as a poor fish.

SINN FEIN.

ANOTHER NEED MET

Ever so often the average man feels a violent urge to protest vigorously. This fact has made history entertaining, divorce courts active, and domestic life exciting. Because he protests at the first thing that comes to mind, be it the pancakes, the dinner hour or the discovery that his humidor has been used as a container for samples of dress goods, there are occasioned many bickerings that might be prevented. At a time when peace and disarmament conferences are in order we gladly accept the duty of supply-

ing the subjects for appropriate and harmless protestations. It is with a realization of the favor we are doing civilization that we propose for immediate consideration the nefarious and unwarranted increase in the parcel post rates to Tibet.

"Cuba seeks reciprocity." That's all right but when the Cuban comes here, how are we going to reciprocate?

The world will be much brighter when home brew passes the experimental stage.

In some lines business may be slow, but the blind pig continues to bring home the bacon.

Temptation is the stone in the road for the man who is learning to ride a bicycle.

A divorce decree, writes R. Spinkayville, has interfered with the pleasures of light-housekeeping on the Farallons.

POEM.

O slum the Steaming Tea-Cup
To preserve the Nose from
Shining;
Avoid the Stealthy Crap Game
And keep the Lunch Bells
Chiming.

Yours,

Don't you think I pick more
elevating subjects than Corisanda
has lately?

—Sophie.

Chips Off the Block

by Robert Quillen

Suggested sign for the capitol lawn: "No Buckpassing!"

Spending money affords an immediate thrill, but the kick of saving is accumulative.

Being cultured has one drawback. You have to pretend that you don't enjoy the circus.

After the grocer's bill goes to the third reading and is passed, he vetoes your credit rating.

Never propose to a girl over the telephone. She may say yes. And she may be the wrong girl.

Preachers never strike, but it is doubtful if other laborers would if they had a one-day week.

Free Country: One in which citizens are privileged to cheer madly for some two-by-four who is trying to land a soft job.

It takes courage to enforce law. The trouble is that most of the teeth in our laws are yellow.

Nobody can tell what the grain market is going to do, except that it is going to do the farmer.

It's a queer logic that strives to lessen the social evil and makes no effort to lessen the divorce evil.

In France a ruined landscape is one where the Germans passed; over here it is one where the bill poster passed.

People now know that the moon isn't made of cheese, but they are still innocent concerning the composition of moonshine.

If it is in liquid form, somewhere in America there is a stomach that can handle it.

Considering the amount of hooch he takes on his trip to India, we can't understand why they call him Prince of Wales.

The golf craze will never affect the entire population. Somebody must keep working in order to manufacture the balls.

Some men never have any experience of great adventure except to go flivvering by when the traffic cop's sign says stop.

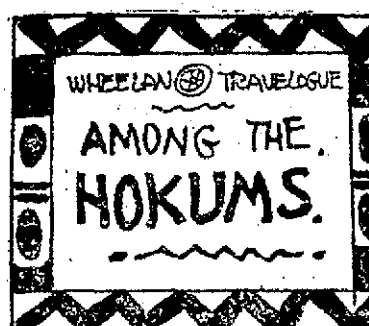

Our observation has been that most of the "wild, wild women" are young enough to be cured by broken doses of spanking.

Old-fashioned parents gave the children an occasional dressing down; but modern parents devote all their energy to dressing the children up.

That Reminds Me :: By Jack Collins

MINUTE MOVIES

IN ONE OF THE MOST INACCESSIBLE DISTRICTS OF OUR GREAT DESERT LANDS ARE TO BE FOUND THE LAST TRIBES OF THE "HOKUM INDIANS."

WE FIRST MADE FRIENDS WITH THE LITTLE HOKUMS WITH THE AID OF PEPPERMINT STICKS, AND THEN THEY INTRODUCED US TO THEIR PARENTS.

THE "DANCE OF THE CLOUDY WEATHER" WAS ONE OF THE MOST UNINTERESTING AND UNINTELLIGIBLE THINGS WE HAD EVER SEEN.

TWO CLOSE-UPS TAKEN AT THE RISK OF BREAKING OUR CAMERA

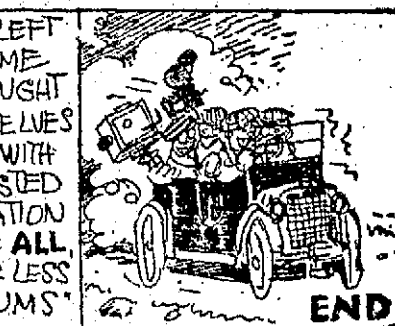

CHIEF "PAIN-IN-THE-NECK" WHO WAS RUNNING FOR MAYOR AND HIS RIGHT HAND MAN "MANY HAPPY DAYS"

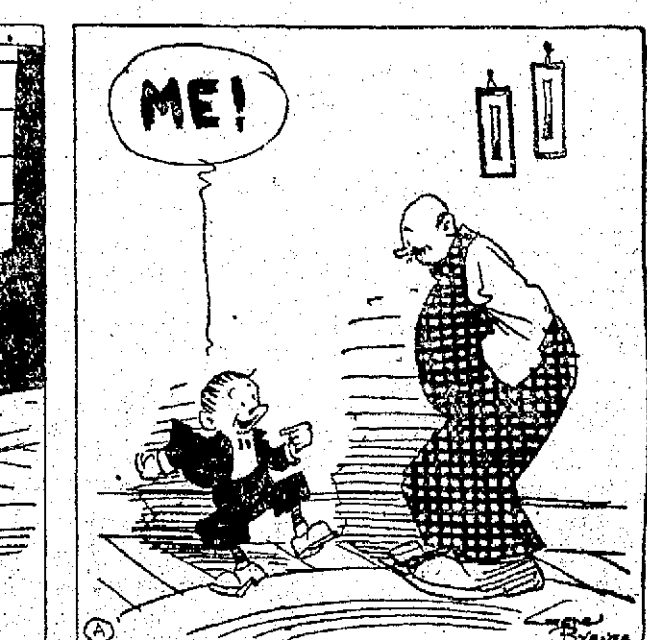

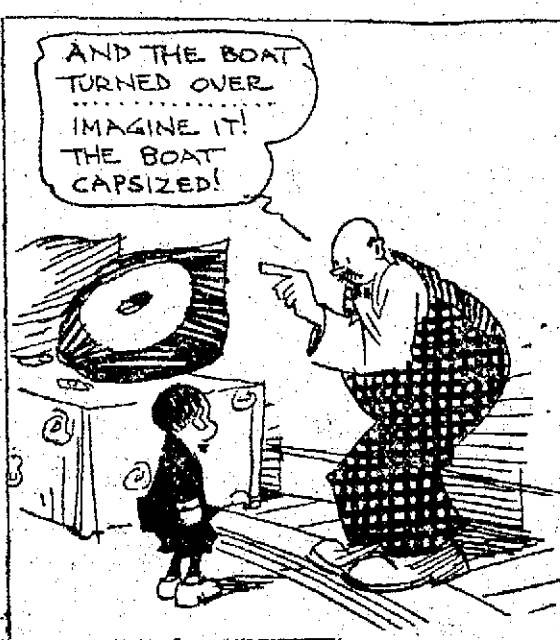

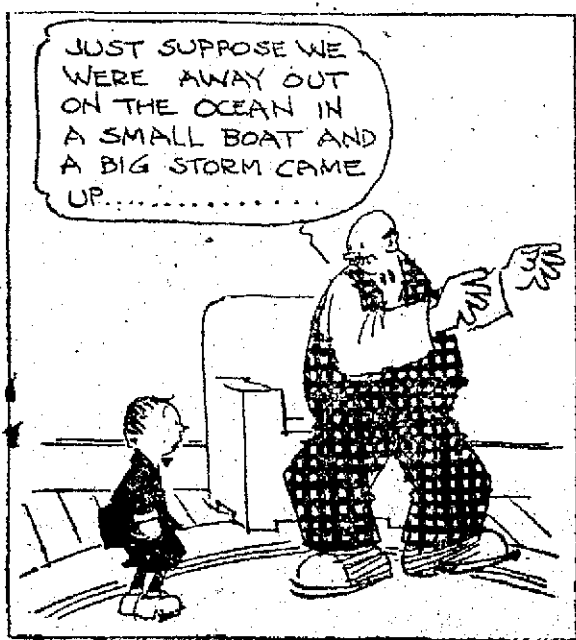

HERE IS SHOWN THE HOKUMS WEAVING THEIR FAMOUS SANITARY BATH-TUBS AT WHICH TASK THEY ARE PROFICIENT TO SAY THE LEAST.

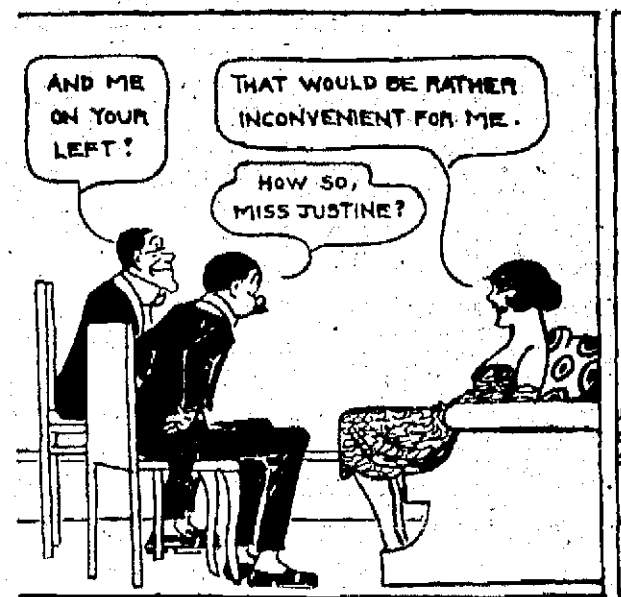

AS WE LEFT FOR HOME WE THOUGHT TO OURSELVES "EVEN WITH OUR BOASTED CIVILIZATION WE ARE ALL MORE OR LESS - HOKUMS"

FORD TELLS U.S.

HOW RAILROADS SHOULD BE RUN

Service, Not Finance, His
On Ironton; Would Our
Stockholders.

EMPLOYEE PARTNERSHIP

"There is a possible and practical system of financing railroads which would be in the hands of the men who are in positions to add directly to the success of the undertaking. If a brakeman on a railroad owns a share in it, in addition to being paid to competent service, if the road is a success it is due to him, his fellow workers, and they are justified in wanting to share in it."

"Railroads should not have to go to banks for money. They can get it otherwise financed. The first step is to make a railroad work. Money is possible or paid to use it as they want. Then there will be no trouble about finances. The trouble has to start with finance and not with the money. Finance can't do that. Finance

If such a course were attempted, we could expect a great outflow of the money of invested capitalists. It would be said that the people who own these stocks for the financial protection of their families, their children, their old people, etc., would not be able to protect them from what? From the necessity of earning their living? Their children would be better off if the parents finance themselves. **EASIER ON NEW ROADS.** "Proper financing" would be easier on new roads. On the old ones, however, it would be possible to retire the parasite, the non-contributing stockholder and get the ownership into the proper hands.

On the Detroit, Toledo and T. the old types of engines and cars be displaced by better types of engines with guarantee free up ideas. We will be prepared to anybody for infringement of patents.

The third step would be to exploit the journey of the carrier. By speeding up our cover the preliminary part of its journey on the D. T. and T. we shorten the time it takes to travel from seven to fourteen hours.

means our produce gets to the market from seven to fourteen days faster than it used to. It means we save on our books \$30,000,000 less unneeded products than otherwise.

TOO MANY LAWYERS.

"Most railroads have enough lawyers working for them to operate them if they were engaged in any work. One of the first things I did was to get rid of them."

dispense with the legal staff. A managed road needs less of that of service. The lawyers are r in the claims department, one most wasteful branches of rail operation. Any small claim a railroad is likely to knock about claims department for week

months, to cost many times as much as it would to pay it. Proper organization would lead, at the time first presented, to establishing facts about it and settling it on a basis of justice. It would keep this detail off the books.

have simplified this department, reduced its cost and have transformed it into an actual help instead of a vexation and a burden. How can we do it? By viewing the proposition as a service to the users of railroad-making everything fit into the

holders and dividends before eyes. Our faith is that service pay. Finance does not come. Work comes first.

operation and cut off its absurdities. Even the old brought up to efficiency, would immense change. We have cut out the loafing of men, and cars. There is no mystic magic about it. Any one can

YOUNG MAN AND
WIFE ARE HELD IN
BURGLARY INQUIRYPolice Believe They Are Pair
Wanted for Many Midnight
Thefts in Berkeley.

With the arrest last night of James Shorter and his wife, Mrs. Marie Shorter, both colored, the police believe that they are the couple wanted as "the man and woman" burglars who have been operating in an automobile in Berkeley and Oakland.

The couple were arrested at their home at 872 Twenty-eighth street by Police Inspectors Tom Wood, Tom Gallagher and Policemen Edward Robinson.

Wood valued at about \$1500 was found in the house the police say. It was a variety of automobile tools, tires, inner tubes, batteries and other extra parts to automobiles. The tools were in the basement and the three were in the basement underneath the steps.

While Police Inspector Woods was searching the basement Shorter, who was with him, was handcuffed, made a break for liberty, he ran out of the basement door, when Wood drew his gun and ordered the man to stop.

In order to get the loot to the city hall the two inspectors had to use the patrol wagon and the assistance of two trustees.

The two inspectors have been watching the couple for the past week. They say that they would leave their home about 10 o'clock in the evening and would not return until the early hours in the morning.

For the past few months a man and a woman have been committing burglaries in Berkeley and this city. The police say that the couple were married last June. Both the inspectors say that the wife accompanied her husband on all his midnight tours.

The wife is 19 years old. The husband gave his age as 25. He is an automobile mechanic.

They are being held for investigation.

Church Men's Dinner
Speakers Announced

ALAMEDA, Oct. 25.—The annual men's dinner in connection with Christ's Episcopal church, will be held in the parish house, Santa Clara avenue and Grand street, at 6:30 o'clock, Wednesday evening. R. B. Malou will be toastmaster. Bishop Parsons will be the guest of honor and the speakers of the evening will be the Rev. H. H. Shires, State Senator Edwin Otis, J. G. Decatur and George Miel. D. A. Dickie will direct the musical program. The women of the church will be the caterers.

This annual dinner is one of the principal reunions sponsored by the West and Alameda Chapter of the Brotherhood of St. Andrew.

DRASTIC CHANGES
IN LAWS RULING
AUTOISTS URGEDChief Vollmer Declares Only
Persons of Character Should
Be Granted Permits.

Through a standard police accident report, used by the police of the United States and Canada, by which the actual cause of the collision or injury might be determined, the large number of accidents in the country as a whole could be reduced from 25 to 50 per cent, Chief of Police August Vollmer, president of the International Police Chiefs' Association, declared today in his address, which opened the second day of the fourth annual convention of the International Traffic Officers' Association, in conference at the Municipal Auditorium. The convention will continue all week of the actual causes of the accidents, as never ascertained, Chief Vollmer declared during his address, the police are unable to reprimand the driver or to make note of the causes leading to the incident.

Concerning the report, Vollmer said: "By the standard police accident report, upon which everything pertaining to the driver, or drivers, the weather, condition of the street, and other conditions under which an accident might occur, the police of the nation might be able to maintain a check on every driver who is concerned in an accident or collision."

CHRONIC OFFENDERS.
Certain classes of drivers are continually becoming embroiled in accidents or collisions, and it is for their special benefit that I am advocating this special standard police report, so that the enforcement officers of the entire nation and Canada may know of their faults and keep a check on them."

The system by which any person whether he is deaf, dumb or blind may secure a license from the state to operate an automobile is fundamentally wrong, Vollmer asserted in discussing the type of person driving the car today. In compliance with the state automobile laws now, he said, any inmate of the homes for the feeble-minded, and for the deaf, dumb and blind may secure a license and operate a car upon the city's streets.

Regarding the manner in which licenses should be issued, Chief Vollmer declared: "Before a person is given permission to operate an automobile his application should be investigated by the state authorities or local police in which city the applicant resides. Unless the applicant can produce evidence of good character and a sound mind he should not be given permission to operate a car."

In the event that a license is granted any person to operate a motor vehicle, upon his license there should be placed three things, his photograph, his finger prints and a description of the man himself. In this way, police could maintain a close check on all reckless and careless drivers and in the event that a machine is stolen, a man's license, suspected of being a thief, could be checked against the original in the State automobile department and found to be correct or illegal.

In closing his address Chief Vollmer advocated a national automobile department in which records of all machines sold, bought, exchanged, or stolen could be kept, in addition to a record kept of all machines leaving the nation by way of Canada or Mexico. Vollmer urged the adoption of the uniform traffic laws, upon which, he said, rested the entire matter of proper traffic legislation.

SCRAMBLED SYSTEM.
Lack of uniformity of signals and local traffic ordinances, both in the larger cities and in the country towns, was the direct cause of a large number of the accidents which are exacting such a large toll of American life, Chief of Police Daniel O'Brien of San Francisco declared in his address on "Traffic Legislation."

Only through the passage of uniform traffic regulations in the state and nation, with the exception of parking ordinances, can the number of accidents and collisions be reduced, he said.

After experiments in San Francisco, where every police officer was turned into a traffic director during his eight hours on duty, the number of accidents in San Francisco for one week was reduced nearly 30 per cent, Chief O'Brien declared, all because uniformity of enforcement was directed over the entire city.

More stringent traffic laws, designed to apprehend the speeder, the reckless and careless drivers and the other traffic violators would in a large measure make it easier for the police officers to detect stolen property, Chief O'Brien said. He also said such action would greatly lessen the number of automobiles stolen and the number of persons killed outright or injured by careless and reckless drivers.

J. H. McLafferty, Oakland traffic expert, delivered a short address shortly before noon and was followed by Chief of Police James T. Drew of Oakland. Chief Drew spoke on "Necessity of Uniform Traffic Laws." He said that through the newspapers, in their news and editorial columns only, could the public be educated to the fact that a traffic officer is its guardian and protector and not a foe. Drew urged immediate adoption of the uniform traffic regulations.

F. K. Eksward, father of the California state motor vehicle act, as chairman of the committee which drew up the new "Uniform Traffic Law," reported work of the committee during the past year. He presented the new laws for the approval of the convention on Thursday October 27.

CASE OF BARZEE
AGAIN DEBATED
BY SCHOOL BOARDMeeting This Afternoon Expected to Reach Definite
Plan of Program.

The special committee to investigate the charges against Business Manager Lloyd Barzee of the board of education, and his answer to those charges, met this afternoon at the civil service board rooms as a result of an agreement made by the board last night.

The subject was brought up last evening by W. H. L. Hyman, attorney for Barzee, who is accused of hiring, transferring and promoting school department employees without sanction. Hyman wanted to know when the committee will tender its report.

"I move the report be made at the next meeting," said Director Daisy Short. "The matter should be closed. It is not doing any good to the school department."

MORE "LIGHT" SOUGHT.
Director George Hatch, who is on the committee to sit the Barzee charges, said he had not done any work, as Director Ormsby told him there would be no action within "two weeks or so." Hatch held that the records of the civil service board should be available to the committee, the Barzee matter to which Chairman John F. Chambers of the civil service board said it would "take 25 persons to pick up the necessary data," and invited the school committee to hold its sessions in the civil service rooms. This was accepted.

Previous to this, a debate on asking teachers and children of the schools to march on Armistice Day was finally referred to the committee of the whole.

The meeting started with an endeavor to create a joint building program committee, to consist of the chairman of the board of education, the superintendent of schools and four members of the Public Education Advisory Committee.

TOO MANY COMMITTEES.
"Now he have another committee," said Director Hatch. "There appears to be nothing but committees, but very few constructive reports. I move we refer this matter to the committee of the whole."

After some argument the matter was referred, after Hatch insisted that "the board of education was put here to handle that sort of matter."

Director Fred Campbell, reviewing the bills coming before the finance committee, again held up the \$50 per month which is allowed Barzee under the terms of his contract, this being for auto transportation. The district attorney ruled that Barzee contract stands good. Barzee says several hundred dollars are now owed because of these monthly refusals by Campbell, but says he is not worried about ultimate collection.

A protest was received by the board from the Building Trades Council concerning the employment of outside labor in city schools, alleged by union men. The matter was also referred to the committee on education.

David Martin, county superintendent of schools, was present and given a formal welcome at the end of the session.

Scots to Open New Year Tomorrow Night
Oakland Pyramid No. 2, Ancient Egyptian Order of Scots, will hold the first meeting of a new year tomorrow night. Captain William J. Day, the toparch, a new corps of officers and new committees will assume their duties at the meeting.

Plans will be outlined tomorrow night for a campaign to double the membership of the Pyramid by October, 1922.

On Saturday, December 3, the pyramid will conduct a ceremonial at Oakland Auditorium. A large class of applicants will be initiated on that evening.

All Scots have been requested to attend the meeting tomorrow night in order to greet the new officers and be advised as to the part they are to play in the program for the coming year.

Sacramento Official Charged With Graft
SACRAMENTO, Oct. 25.—William N. Nesbitt, a deputy in the office of the city controller here and formerly chief deputy tax collector, was arrested yesterday by Chief of Police Barney McShane, who announced Nesbitt would be charged either with extortion or obtaining money under false pretenses.

McShane said the arrest of Nesbitt followed the latter's admission that he had fraudulently induced three saloon-keepers of this city to pay him \$300 to get them liquor licenses.

The charges are being investigated by the district attorney's office.

Rat Casualty
List Is 62,500,
Officer HopesA total of 62,500 "baits" were set
out for rats in Oakland during the
present rat campaign, according
to a report tendered to Health Officer
Harry Foster today, the report
asserting that the baits were
"all taken."

What happened to the rats which took the baits is only guessed at. Some dead rats have been found, but it is believed that most of the rodents either died privately or possibly recovered. The rush for the poisoned baits, however, is taken to prove the popularity of the phosphorous poison, and more will be served up for the remaining rats in the near future.

The baits were set out in the public dumps at Eighth street, West Fourteenth street and Seventeenth street, also on the tracts leased to the Pary & Albers companies and to the Union Construction Company.

Dr. Foster asserts that the future solution of the rat problem really hinges on the construction of rat-proof cellars on all new buildings.

Moonshine Sought in
Fog by Policemen

Relocation to the "fog belt" is no longer a hardship to a policeman, according to Commissioner Frank Colburn. The old terror, he says, has lost its force and the "fog belt" is becoming as important as any other "beats" in the city.

"In fact, in some respects the fog belt is more important," says Colburn. "In these days of moonshiners and bootleggers, the quieter sections of the city are just where they wish to congregate, and the policeman in those districts has to be more vigilant than the one in the lighted districts. It may be that the most alert patrolmen are needed in the so-called 'fog belt,' where obscure happenings happen."

"Moonshine thrives in fog. It thrives in dark places and quiet neighborhoods. Every policeman in those districts has a special extra job to keep track of them."

Chinese Medicine Is
Held for Customs

SAN FRANCISCO, Oct. 25.—An effort on the part of consignees to avoid the payment of duty led to the seizure today by Customs Inspector W. J. Williams of 2000 bottles of Chinese medicine and 119 packages of spice apricots on pier 21. The medicine was contained in two baskets and according to customs officials there were no manifests for the articles.

Only 38 per cent of the electrical power manufactured in the United States is produced by water power.

OFFICIALS MEET
TO FORM PROGRAM
FOR WATER FIGHTRail Commission to Hear the
Pleas for Higher Rates and
Lower Rates.

As a prelude to the big water rate hearing before the state railroad commission November 23, when the water company will ask for higher rates and the consumers for lower ones, the officials of the Eastbay cities will meet at Mayor Davis' office tomorrow at 4 p. m. to consider their line of campaign.

The call was issued today. The following officials are expected to be present at the conference: City Attorney Leon Gray and Engineer Marion Campbell of Oakland, with Mayor Davis; Mayor Bartlett, Commissioner Schmidt and City Attorney Frank Cornish of Berkeley; Mayor Otis, City Attorney Locke, Councilman Latham and Engineer C. B. Hickok of Alameda; Mayor W. H. Christie of Emeryville; Mayor Oliver Ellsworth of Piedmont; Mayor Gerard and City Attorney D. J. Hall of Richmond.

Says City Attorney Gray: "We do not think the raising of rates is justified. We do not believe the present rates are justified, especially the surcharge, which is a nuisance. Our main attack will be upon the surcharge."

At tomorrow's meeting, complete "team work" among the cities of the Eastbay is planned.

The scheme of holding sample fairs in French cities was originated at Lyons in March, 1916, by Mayor Herriot.

Party Seeks Whisky Cargo
On Boat Wrecked in 1865

BERKELEY, Oct. 25.—Whether or not 354 barrels of whisky remain intact off the coast of Mendocino county, where they sank during the shipwreck of the Brother Jonathan in 1865, will be determined by a party of searchers headed by F. B. Mansfield of Berkeley, one-time mayor of South Milwaukee.

Incidentally, says Mansfield, there is \$1,000,000 in gold coin at the bottom of the sea at the same point where the whisky went down. The gold, Mansfield feels sure, is intact, but he has his doubts about the whisky.

W. G. Smith of Milwaukee, friend of Mansfield, has been interested in the treasure hunt and is declared to be sending a large diving bell to the coast to use in the shipwreck.

DISTEE WHEELS WIN
First, Second and
Third at Cotati

DRIVER CAR TIME
Roscoe Sables Duesenberg 1:21:34 3-5
Joe Thomas Duesenberg 1:21:34 4-5
Eddie Hearne Distee 1:23:52 2-5

Distee Wheels Are as Valuable on Passenger Cars as on Racing Cars

The results of the Cotati prove conclusively Distee superiority—speed, safety, ease on tire and bearings

Notwithstanding the high speed attained, the winners' average was 108 miles per hour, these three Distee wheel-equipped cars completed the race without changing a tire. Distee advantages are as notable on passenger cars as on racing cars. Distees have strength to meet any emergency. They save tires. They simplify tire and wheel changing. They are an asset to any car. Let our representative explain Distee advantages to you.
